

ABOUT THE UNIVERSITY

Periyar University is a young vibrant University, established in 1997 in the name of Periyar, a great social reformer of Tamilnadu. The jurisdiction of the University extends to the four districts viz: Salem, Namakkal, Dharmapuri and Krishnagiri. Periyar University has 105 Arts and Science College, 6 Constituent colleges, a University PG Extension Centre and 11 Community colleges. More than 150 thousand students are enrolled in these colleges. There are 28 University Departments offering 28 Post Graduate Programmes and actively pursuing research leading to M.Phil and Ph.D degrees. The University aims at developing knowledge at various fields in consonance with the motto inscribed in its emblem "Wisdom Maketh the World". The campus is located on the NH7. The Salem city is about 8 Kms from the campus. It is well connected by road, rail and air. The University has been functioning as the pool of knowledge by executing researchers at national and international level. The University remains as the beacon for higher education to rural students. The University has been reaccredited by NAAC with 'A' Grade and - NIRF Rank 90

ABOUT THE DEPARTMENT OF LIBRARY AND INFORMATION SCIENCE

The Department of Library and Information Science was established in 2011. The Department has full-fledged, dedicated and committed the team of faculties with rich research experience. The vision of the department is to impart quality of research and skill based Library and Information Science. The departmental endeavors to promote valid research activities and encourages students to bring out High impact factor publications in LIS. To meet out this high ended motive, the department has framed the syllabus to accommodate students compatibly at international forum

THEME OF THE SEMINAR

The research has received much attention in recent years. Several measures have been used: metrics such as number of citations; the h- index and the amount of online access and weighted citations. Others are based on input and output. Peer review, both application and disseminations stages has also been used as a method to measure quality. The US uses the number of extramural grants as an important measure of research quality and success in addition to citations. None of these are without problems and bias and a recent opinion piece in Nature discusses the problems of putting too much faith in a single method - it measure a number, a ranking or peer review system. Curriculum Enhancement in Quality Publication.

- Plagiarism
- Reference tools
- Databases
- Impact Factor, Citations, H-Index and G-Index
