About the University

The Government of Tamil Nadu established Periyar University at Salem on 17th September, 1997 as per the provision of the Periyar University Act, 1997. Reputed educational institutes in the districts of Salem, Namakkal, Dharmapuri and Krishnagiri are affiliated to this esteemed University. The University got the 12 (B) and 2 (f) status from the University Grants Commission and has been accredited to A by NAAC. The established Departments, Centres, Institutes and Chairs are contributing their best through academic, research and extension activities. The University is playing a paramount role in bringing multi-faceted development for the country. The University is consistently engaged in various academic activities to bring researchers, scholars under one umbrella to discuss, deliberate and carve out time demanding solutions to social issues. The University stands apart with its unique "Village Adoption" activity. The University has tie-up with various academic, research institutes and Universities across the world to bring laurels to the academia.

About the Department

The Department of Nutrition and Dietetics ventured with the motto of empowering our students to be the influential leaders in the industry of nutrition and dietetics in 2016. Clinical Nutrition and Dietetics is a burgeoning field with full of possibilities and one that is expected to see a remarkable bloom over the next decade. The motive of our program includes not only preparing students to earn the academic credential, but to also pursue to function in society as a professional upon which practitioner competence can be built. Our academic preparation backs continued proficient growth to meet personal, professional, community and worldwide evolving healthcare need and is committed to improving and advancing the profession of nutrition and dietetics through research education and advocacy. The department is armed with well qualified, dedicated and experienced faculty members and fosters research and development activities in major thrust areas like Food Processing and Clinical Nutrition. The department offers M.Sc, M.Phil and Ph.D programmes in Clinical Nutrition and Dietetics. On behalf of the Periyar University Nutrition Club (PUNC) the Department organizes and conducts regular seminars, conferences, special lectures and workshops to create awareness and update students and community on recent emerging health issues to combat it.

Significance of the Conference

The research on food and nutrition is an endless phenomenon, with a systematic compilation of data's about foods and their nutritional components. By and large the significance of food and nutrition science does not end with the process of research but plays a vital role in the socio-economic development of the nation as whole. Nutrition plays a leading role in treating the patients with Diabetes. Eating well in a balanced manner can control the blood sugar of a patient. Medical nutrition therapy is an important topic of diabetes management and self-management of diabetes education. Macronutrients are the key diet of nutrition for the patients. Medical nutrition therapy has certain goals for the patients.

A great number of research activities in the field of health related dietary aspects have demonstrated a significant link between the regular intake of nutraceuticals (e.g. polyphenols, carotenoids, phytosterols), and the prevention of life-style related diseases, such as cancer, obesity, diabetes and cardiovascular complications. In these issues Diabetes management should be looked into a broad wide point of view. So Department of Nutrition and Dietetics announces its "International Conference on Current Approaches in Nutraceuticals and Food Technology in Diabetes Management (ICNDM-2019)" from January 24-25, 2019.

Aim of the Conference

The aim of the conference is to stay up to-date on emerging trends and provide a forum for discussion on topics related to Nutrition and Diabetes management among Nutritionists and other professionals serving as Diabetologists, Food Scientists, Food Industrialists, Food Technologists, Food Researchers, Agriculturists and other Health Care Providers.
