3) DEPARTMENTAL ACTIVITIES

The department of Microbiology came into existence during the academic year 2009-2010 for the programme M.Sc., M.Phil. and Ph.D. with the vision to establish knowledge, skills and services in Microbiology on par with the international status. En route to the journey in the pursuit of excellence in Science, the Department of Microbiology was elevated to the School of Bioscience in the year 2015. In a short span, the department has made tremendous contributions both in the aspects of academics and research. The department has established strong collaborations with National Institute for Research in Tuberculosis (NIRT-ICMR), IIT Madras, Bharathidasan University, Annamalai University and Sathyabama University etc. The department has been sanctioned DST-FIST fund for about Rs 60 lacks in the year 2015 to enrich and establish our research activities. The department is awarded with UGC-BSR-Non-SAP grant to strengthen the department infrastructure facilities. In addition, the UGC also sanctioned 2 research fellowships under this programme.

The Department had started the club namely “Periyar University Microbiology Club (PUMIC)” to bring light the impressive and admirable activities of both the students and the staff. Under the PUMIC, there are several lecture series were arranged.

**CENTRE FOR INSTRUMENTATION AND MAINTENANCE FACILITY
(CIMF) 2019 -2020**

CIMF and its Objective

Centre for Instrumentation and Maintenance Facility (CIMF) is the unique facility, which was created under UGC's XIth plan merged scheme. The main objective of the centre is to provide better service for the electronic and electrical equipments, and to design new electronic devices to meet out the university's research and teaching requirements. CIMF is well equipped with sophisticated electronic equipments. Periodically, CIMF conducts workshops and training programmes on various instruments being used for scientific research.

New Equipments Facilities created

This academic year CIMF purchased and installed a Single crystal X-ray diffractometer (SCXRD) and the Life Science Departments also purchased Scanning Electron Microscope (SEM) and Gas Chromatography Mass Spectrophotometry (GCMS) from RUSA grant. All these equipments will be placed in CIMF under one platform, so that all the faculties and students can utilize these sophisticated facilities for their research.

1. Single Crystal X-ray diffraction facility

CIMF created Single Crystal X-ray Diffraction intensity measurement facility. This facility is mainly intended for materials, biomolecular and chemical research and others can also utilize this facility if it is necessary. This instrument allows to determine the crystal and molecular structure of crystalline materials.

CRYSTAL SELECTION

SINGLE CRYSTAL X-RAY DIFFRACTOMETER

2. Scanning Electron Microscope and Gas Chromatography Mass Spectrophotometry Facilities

The Scanning Electron Microscope (SEM) and the Gas Chromatography Mass Spectrophotometry (GCMS) are installed, researchers can utilize these instruments for their research.

GCMS

Equipment service and Revenue

From the very inception of this centre, CIMF serviced several electronic and electrical equipments, computers and other non-electronic equipments which are being used for research and teaching. These in-house facilities are immensely helpful for our students as well as researchers and the non-teaching staff members. CIMF charges a very minimal amount for service/component replacement. The amount receiving towards the equipment service is duly deposited to Registrar's CIMF account without any delay. This revenue is very helpful for CIMF's future development. This academic year 2019-2020, CIMF serviced 250 equipments/computers/small instruments.

Workshop and Training Programs

CIMF is organizing crystallography school and training programs to benefit our faculties and students of our university and affiliated colleges. During the last academic year (2019-2020), CIMF organized the following programmes.

School conducted (2019-20)	:	1
Training programs conducted (2019-20)	:	1

“PERIYAR SCHOOL OF CRYSTALLOGRAPHY (21-25 February, 2020)”

This school is primarily aimed for young researchers doing research in physical, chemical and biological sciences. Researchers who are interested to learn crystallography can apply for this school. By attending this school, participants gain hands-on experience and theoretical background of crystal and molecular structure determination of small molecules by single crystal X-ray crystallography and also teach how to interpret the crystal structures and the presentation of results. The school will consist of lectures, practical and tutorials. The school is ideal for anyone for whom knowledge of crystal structure analysis would be particularly helpful in their current research.

During the school, participants will be able to use the Bruker D8 QUEST ECO X-ray diffractometer available in CIMF of Periyar University. Participants are expected to bring their own laptop for the practical exercises and the structure solution, refinement and analyses of the provided exercise structures. Participants are provided with all of the necessary crystallographic software, which they should install before the school.

The unique aspect of the school is that the participants will get personal attention and also possible few participants may get an opportunity to collect data and determine the structure of one of their own compounds. Experienced technical staff of Bruker AXS will demonstrate how to use single crystal X-ray diffractometer for the X-ray diffraction intensity measurements of crystals and

process the data. Eminent Crystallographers from different institutions will deliver lectures and train the participants. During the training, the participants will be taught how to use the winGX crystallographic software suite, specifically for space group determination, structure solution from SHELX and refinement from SHELXTL97 softwares. In the tutorial session, the X-ray diffraction data sets of few samples will be given to the participants for practice.

Training Programs conducted during the academic year 2019-2020

Apart from the workshop, CIMF also periodically organizing training programmes on technical aspects of various instruments. This academic year (2019-2020) CIMF has organized the training program on (i) Computer Assembling and OS Installation held on 13-14th March 2020

Training program – 1

Title : Computer Assembling and OS Installation

Date : 13-14 March, 2020

The title of the first training program is “Computer Hardware: Assembling and Maintenance”. In this training program, Mr. N. Prabakaran, VIT University, delivered two lectures on “System Architecture in real time and Basic computers”, and “Computer Operating Systems”, these lecturers were very helpful to participants to understand the basics of computer hardware and operating systems. Further, there were four practical sessions have conducted, in which, hands-on training also given to the participants to know-how to assemble a computer and to install the operating system (OS) and application softwares in the given computer. In this program, participants were trained and at the end of the training programme, it was found that all participants were independently able to assemble a computer and install the OS without any assistance.

HEALTH CENTRE

Periyar University Health Centre serves as infirmary providing free treatment to all students and staff of our University. Every day about 20 inmates coming for regular checkups like Bp, Sugar level. As of now a staff nurse is in charge and treating the patients who come with small complaints like fever, cold, headache throat pain, giddiness etc. minor wounds are given dressing and ailment and when necessary arises, visiting Doctor is invited for further diagnosis and treatment.

The health centre of periyar University regularly conducting medical camps and last year we had blood camp in which more than 1500 students, volunteers and staff participated and donated their blood.

Periodically medicines in the stock been investigated thoroughly and the new medicines are bought with the approval of Vice Chancellor. It would be of great help the health centre has a regular or visiting physician appointed for this purpose well treated and they are recovering good.

In Health Centre there are more new equipments and medicines available All students, teachers and staffs utilized medical care. In future, Health centre will provide necessary treatment with specialized equipments and plan to conduct more medical camps.

We have been diagnosed many cases with myocardial infection, dengue fever , RTA, typhoid fever, dilated cardio myopathy, cellulites, diabetic mellitus, SHT, peptic ulcer ,duodenal ulcer, acute gastritis, amoebic dysentery and cardiac cases.

ACTIVITIES OF THE COMPUTER CENTRE

Computer Centre

The Computer Centre was established in the year 2007 with financial grant from UGC to augment the computing facility to the MCA and M.Sc. Computer Science students and to provide additional support to the computer related activities of the University. The Computer Centre extends support facilities to all the departments of the University and ensures optimal utilization of Computer. Computer Centre Lab contains 84 personal computer systems, including the latest software packages and interconnected with high speed Ethernet network.

Objectives

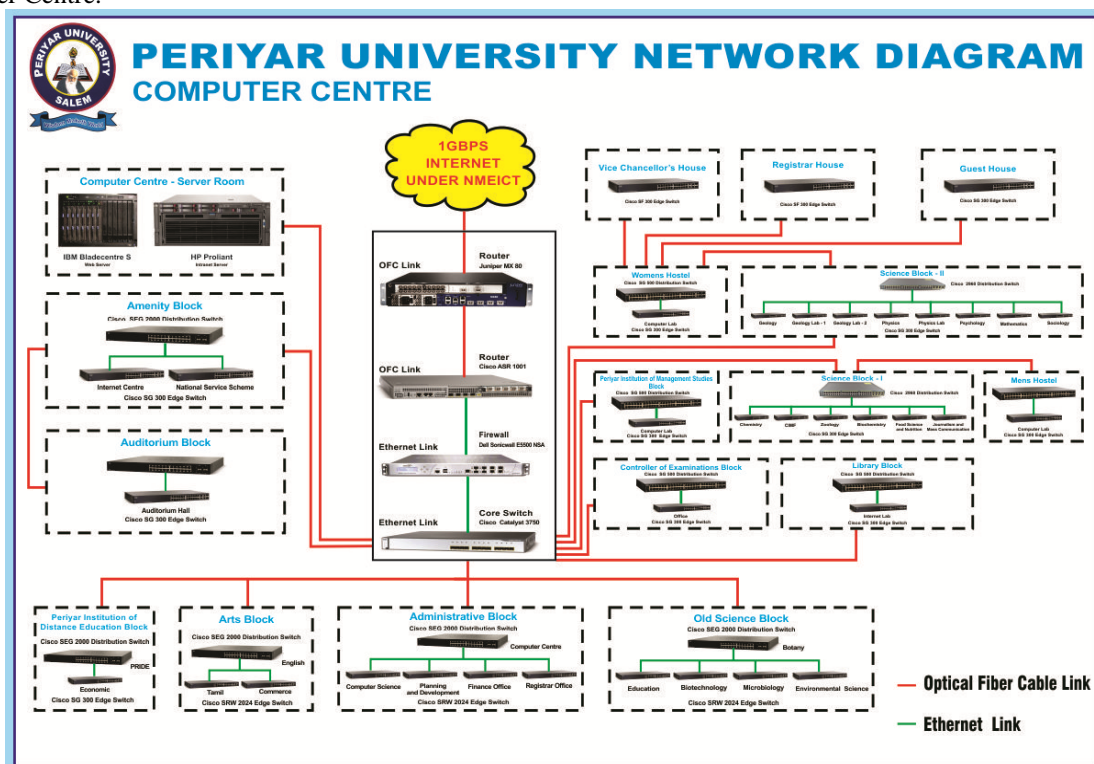

- To become centralized centre for computer based Teaching, Research and Training Programmes.
- To provide Networking Facilities to University.
- To cater the need of the Computing Facilities.

Services

- To maintain website of the University
- To maintain campus Local Area and Wi-Fi Networks
- To provide the Internet Facilities

Campus Network Maintenance

The Computer Centre is providing Wired and Wireless Internet facilities throughout the University Campus including teaching Faculties, Administrative staff members, as well as the students through 1GB Speed by using optic fibre leased lines from BSNL Service Provider. The University has RFS 4000 Series Hardware Controller for maintaining the AP 622 Indoor and AP 6562 Outdoor Wi-Fi Access Point. The Centre also having Sonicwall E5500 series Firewall for Internet Security and Panda Endpoint Protection provides Desktop Antivirus solutions for the Computer Centre.

Internet Centre

The Internet Centre was established in the year 2012 in order to provide the needs of the students in browsing and electronic mail. It is highly imperative for the scholars and students to use the Internet in order to download their research and course materials. The Internet resources like search engines provide the facility for the students to download relevant information. Another significant use of Internet is that the students can also update their knowledge in the latest trends in the technical fields.
