CHOICE BASED CREDIT SYSTEM (CBCS)

1. CHOICE BASED CREDIT SYSTEM (CBCS)

The Choice Based Credit System is a flexible system of learning. The CBCS was introduced for all the programmes offered by the University from 2004-05 onwards. The distinguishing student friendly features of CBCS allow students to:

- ❖ Learn at their own pace
- ❖ Choose electives from a wide range of elective courses offered by the University departments with consultation of department faculty members.
- ❖ Adopt inter-disciplinary approach by choosing supportive papers in learning and make best use of the expertise of available faculty.

DEPARTMENTS AND PROGRAMMES

There are 27 departments offering programmes at various levels under the CBCS. A programme consists of number of courses. A 'Course' is a component (a paper) of a programme. Every course offered by the University departments is identified by a unique course code. A course may be designed to involve lectures / tutorials / laboratory work/ seminar / project work / practical training / assignments / industrial training / viva voce, etc. or a combination of these, to meet effectively the teaching and learning needs and the credits may be assigned suitably.

SEMESTERS

An academic year consists of two semesters namely, Odd Semester (I and III Semesters): July to November; and Even Semester (II and IV Semesters): December to April. A semester normally extends over a period of 15 weeks. Each week has 30 hours instruction spread over a 5 day week. The duration of each semester shall be 90 working days for all PG programmes and 120 working days for B.Voc., programme.

CREDITS

Credit defines the quantum of contents/syllabus prescribed for a course and determines the number of hours of instruction required per week. Thus, normally in each of the courses, credits will be assigned on the basis of the number of lectures/tutorial/ laboratory work and other forms of learning required to complete the course contents in a 15 week schedule:

1 Credit=Minimum1 hour lecture per week (1Credit course= Minimum 15 hours of lectures per semester)

The total minimum credits required for awarding a two year PG degree is 94, and for B.Voc., 180.

PROJECT

Each student shall be required to take up an individual student Project work at PG level and submit it at the end of the final semester. Students shall be allotted to all the faculty members for project guidance in a departmental committee meeting with the concurrence of all the members. A copy of the Project report shall be submitted to the department on or before the last date fixed by the Department/University. The Project shall be evaluated by the guide and an external examiner nominated by the University and viva-voce examination be conducted to award the marks as per norms.

COURSE NUMBERING

Every course offered by the University Departments is identified by a unique course code with 11 digits illustration: Course code -21UPCSC1C02: Design and Analysis of Algorithms

1st&2nd Digits : Effective year of the syllabi (21)

3rd&4th Digits : University Programme (UP)

5th, 6th & 7th Digits : Department code (CSC – Computer Science)

8th Digit : Degree code, Department may offer different Degree courses

(1 – M.Sc (Computer Science), 2 – M.C.A, etc.,)

9th Digit: C for Core Course, E for Elective course

10th & 11th Digits: Serial Number of the course code (1 to n).

VALUE ADDED/ADD ON COURSE

Each department is mandated conduct one value added course in a year with minimum duration of 30 hours to their own or other department students. Each department may offer a certificate/diploma/PG diploma programme as add on course to their own department students with recent trends/advanced technology apart from the regular degree programme as per UGC guidelines and approved by concerned board of studies. The value added /add on course will be conducted during 4:45PM to 5:45PM or on Saturdays. The course fee is fixed as Rs.500/- (Rupees Five Hundred only) for each value added/add on course. The Controller of Examinations, Periyar University may issue the value added / add on course certificate to the students after successful completion of the course.

SUPPORTIVE PAPER

Supportive course should be offered only in second semester. Students are expected to opt Supportive Course (Non major elective) offered by other departments.

SWAYAM COURSE

SWAYAM course should be offered in second semester of all PG programme. SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy namely access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged. SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy. The courses hosted on SWAYAM are in 4 quadrants – (1) video lecture, (2) specially prepared reading material that can be downloaded/printed (3) self-assessment tests through tests and quizzes and (4) an online discussion forum for clearing the doubts. Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology. In order to ensure best quality content are produced and delivered, nine National Coordinators have been appointed: They are AICTE for self-paced and international courses, NPTEL for engineering, UGC for non-technical post graduation education, CEC for under graduate education, NCERT and NIOS for school education, IGNOU for out of the school students, IIMB for management studies and NITTTR for Teacher Training programme. Courses delivered through SWAYAM are available free of cost to the learners, however, students wanting certifications shall be registered, shall be offered a certificate on successful completion of the course, with a little fee. At the end of each course, there will be an assessment of the student through proctored examination and the marks/grades secured in this exam could be transferred to the academic record of the students.

Learning Outcome Based Education (OBE) Curriculum

The learning outcomes based curriculum framework for education is a framework based on the expected learning outcomes and academic standards that are expected to be attained by graduates of a programme of study and holder of a qualification.

The OBE was introduced for various programmes offered by the University from 2019-20 onwards. The overall objectives of the learning outcomes based curriculum framework are to:

- & Helps to formulate graduate attributes, qualification descriptors, programme learning out comes and course learning outcomes that are expected to be demonstrated by the holder of a qualification;
- & Enable prospective students, parents, employers and others to understand the nature and level of learning outcomes (knowledge, skills, attitudes and values) or attributes a graduate of a programme should be capable of demonstrating on successful completion of the programme of study;
- & Maintain national standards and international comparability of learning outcomes and academic standards to ensure global competitiveness, and to facilitate student/graduate mobility; and
- & Provide higher education institutions an important point of reference for designing teaching-learning strategies, assessing student learning levels, and periodic review of programmes and academic standards.
