

Department of Microbiology
Periyar University
Periyar Palkalai Nagar
Salem - 636 011

M.Phil. Microbiology
Syllabus

(For the students admitted from 2013-14 onwards)

DEPARTMENT OF MICROBIOLOGY, PERIYAR UNIVERSITY

PERIYAR PALKALAI NAGAR, SALEM – 636011

M.Phil. MICROBIOLOGY SYLLABUS

(Candidates admitted from 2013-2014 onwards)

Full Time

1. Eligibility

Candidates who have qualified for the post graduate degree in any biological science of this University or any other University recognized by the syndicate as equivalent there to shall be eligible to register for the Degree of Master of Philosophy (M. Phil.) their respective subject and undergo the prescribed course of study in an approved institution or department of this University.

Candidates who have qualified their postgraduate degree on or after 1st January, 1991 shall be required to have obtained a minimum of 55% of marks in their respective postgraduate degrees to become eligible to undergo the prescribed course of study in an approved Institution or department of this University.

In the case of teachers (or) others registering for part time registration, the minimum percentage of marks for registration is 50%.

For the candidates belonging to SC/ST community and those who have qualified for the Master's degree before 01.01.1991 the minimum eligibility marks shall be 50% in their Master's Degree.

2. Duration

The duration of the M. Phil course shall extend over a period of one year from the commencement of the course.

3. Course of study

Course of study for the degree shall consist of (a) Part-I comprising three written papers according to the Syllabus prescribed from time to time: and (b) Part-II Dissertation.

Part –I shall consist of Paper –I Research Methodology and Paper –II an advanced paper in the main subject. There shall be a third paper which shall be the background paper relating to the proposed Dissertation conducted internally by the College/Departments.

4. Scheme of Examinations

Part I: Written Examination (Paper I, II & III)

The examination of papers I, II and III shall be held at the end of the year. The duration for each paper shall be 3 hours carrying a maximum of 100 marks.

Paper –III examination will be conducted by the Departments and the marks obtained by the candidate along with the question paper and valued answer scripts shall be sent to the University at least 15 days before the commencement of the examinations of paper I and II.

Part II: Dissertation

The exact title of the Dissertation shall be intimated with in one month after the completion of the written examination. Candidates shall submit the Dissertation to the University through the Supervisor and Head of the Department at the end of the year from the commencement of the course which shall be valued by internal examiner (supervisor) and one external examiner appointed by the University from a panel of four names sent by the Supervisor through the Head of the Department/ at the time of submitting the Dissertation.

The examiners who value the Dissertation shall report on the merit of candidates as “Highly Commended” (75% and above) or “Commended” (50% and above & below 75%) or “Not Commended” (Below 50%).

If one examiner commends the Dissertation and the other examiner, does not commend, the Dissertation will be referred to the third valuation shall be final. Submission or resubmission of the Dissertation will be allowed twice a year.

The allotment of marks for (i) Theory (ii) Dissertation and Viva Voce are as follows:

(i) Theory Papers

Internal	: 25 Marks
External	: 75 Marks
Total	: 100 Marks

(ii) Project Dissertation

Dissertation : 100 Marks

Viva Voce : 50 Marks

Total : 200 Marks

(iii) Internal assessment for course I, II and III

Test : 10 Marks

Seminar : 10 Marks

Attendance : 05 Marks

Total : 25 Marks

S. No	Paper	Title of Paper	Exam Hrs	Max. Mark
1	Paper I	Research Methodology and its Applications	3	100
2	Paper I	Advances in Microbiology	3	100
3	Paper I	Guide Paper	3	100
4	Part II	Dissertation	-	200
Total				500

5. Passing Minimum

A candidate shall be declared to have passed Part-I of the examination if he/she secures not less than 50% of the marks in each paper including Paper-III for which examination is conducted internally.

A candidate shall be declared to have passed Part-II of the examination if his/her dissertation is at least commended. All other candidates shall be declared to have failed in the examination.

6. Restriction in number of chances

No candidate shall be permitted to reappear for the written examination in any paper on more than two occasions or to resubmit a Dissertation more than once. Candidates shall have to qualify for the degree passing all the written papers and dissertation within a period of three years from the date of commencement of the course.

7. Conferment of Degree

No candidate shall be eligible for conferment of the M. Phil degree unless he/she is declared to have passed both the parts of the examination as per the regulations.

8. Qualifications for persons conducting the M. Phil course

No teacher shall be recognised as a Supervisor unless he possesses a Ph. D degree or two years of PG teaching experience after qualifying for M. Phil or M.Litt. Degree.

Only the post graduate departments of affiliated colleges and departments of the University will be recognized for conducting the M. Phil course provided; however, the Syndicate shall have the power to decide any other institutions of higher learning / research within the University area for conducting the M.Phil course on merits.

PART-TIME

9. Eligibility

(i) Teacher candidates working in the University Departments.

(ii) Teacher candidates working in the affiliated colleges and whose qualifications are approved by the University.

(iii) Teacher candidates working in Polytechnics approved by the Director of Technical Education or in Higher Secondary Schools and High Schools approved by State Board or Central Board of Secondary Education or Educational Institutions of IAF (within Periyar University area) who possess a Master's Degree. For the Master's Degree qualified prior to 01.01.1991, no minimum marks is prescribed; but on or after 01.01.1991, a minimum of 55% of the marks is prescribed, provided that for the candidates belonging to SC/ST community a concession of 5% of marks will be given in the minimum eligibility marks prescribed.

10. Duration

The course of study shall extend over a period of two years from the commencement of the course. The examinations for Part-I shall be taken at the end of the first year and Part-II Dissertation at the end of the second year.

11. Regulations

The Regulations governing the full-time M.Phil. course with regard to the course of study, scheme of examinations passing minimum, etc and qualifications of guide conducting the M. Phil course shall apply to part-time candidates also.

12. Restriction in number of chances.

No candidate shall be permitted to reappear for the written examination in any paper on more than two occasions or to resubmit a Dissertation more than once. Candidates shall have to qualify for the degree passing all the written papers and dissertation within a period of four years from the date of commencement of the course.

M.Phil. MICROBIOLOGY (Choice Based Credit System)

Course of Study

Part	Course	Course Code	Name of the course	Credits	Marks		
					IA	UE	Total
I	I		Research Methodology and its Applications	4	25	75	100
	II		Advances in Microbiology	4	25	75	100
	III		Research Background Paper	4	25	75	100
II	IV		Dissertation and Evaluation	8 + 4	50	100	150
			Viva voce	(12)			50
			Total	24			500

Paper-I

RESEARCH METHODOLOGY AND ITS APPLICATIONS

Objective

This paper is aimed at providing exposure to the students on the basic skills for becoming a researcher in microbiology.

UNIT - I

Research Methodology – Introduction, importance, identification of research areas, Review of Literature- Identification of knowledge gap areas and constraints - Review and synopsis presentation. Research process, Research design and experimentation - Preparation of research report. Guidelines for preparing an article - ISSN, ISBN impact factor, citation index, h-index, I-index, Google scholar, Scopus, Thomson & Rueter, Web of Science. Computers in biological research.

UNIT - II

Biostatistics - Principles and importance. Measurement and measurement scales, Sampling and data collection, Population parameters and sample estimates. Frequency distributions, Frequency polygons, Probability curve, Measures of central tendency, Variability, z-scores, Correlation- regression, Student's t- test, Chi square test, F-test, ANOVA and Post-Hoc tests. Statistical tools – SPSS, RSM.

UNIT - III

Micro-Biotechniques – Microscopy – TEM, SEM, AFM, Electrophoresis, PCR, RAPD, RFLP, Immunotechniques, Histochemical studies,, ELISA technique; Fermentors – Design, types, upstream and downstream Process.

UNIT - IV

Analytical Techniques - Centrifugation, Column, Gas and High Pressure Liquid Chromatography, Spectrophotometry, Fluorimetry, NMR, Atomic Adsorption and Mass Spectroscopy, X-ray diffraction, Radio isotope techniques, GM Counter and Scintillation Counter.

UNIT - V

Bioinformatics and IPR- An overview of Bioinformatics. Computing tools phylogenetics and computational biology. Genomics, Proteomics. Drug design and commercial bioinformatics. Intellectual property rights, patents, trade secrets, copyrights, trade mark. Patenting transgenic organisms. Plant breeder's right. Ethics in animal biotechnology.

Paper - II

ADVANCES IN MICROBIOLOGY

Objective

This paper provides information about the latest and advanced knowledge of microbiology.

UNIT - I

Microbial techniques: Confocal Microscopy, DNA Microarray for comparative and Evolutionary Genomics: Flow cytometry: Photo and video Micrography and Autoradiography. Atomic flame photometry, Plasma emission spectroscopy, Infra-red spectrophotometry. Tandem mass spectroscopy, Electron Spin Resonance spectroscopy, MOLDI-TOF mass spectrometry.

UNIT - II

Current trends: Exploration of bioactive compound from Extremophiles. Bio remediation, Bio sensors. Biofuel. Biofilms. Remote sensing microbiology, Microbial communication - Quorum Sensing. Bar coding of microbes – application in clinical and industrial fields,

UNIT - III

Microbes and Health: GLP, Laboratory and hospital acquired infection. Emergence of MDR and XDR microbes. Harmful microbes and biological weapons. Automated diagnostic method. Recombinant vaccines. Environmental aspects of emerging diseases.

UNIT - IV

Microbial Technology: Microbes in Nanotechnology, Applications in Tissue engineering and therapeutics. Biopolymers, Biosurfactants, Biofertilizers, Biopesticides, Bioluminescence, Genetically modified organisms. Gene therapy, Stem cell therapy. carbon sequestration by microbes.

UNIT - V

Microbial Pharmaceutics and Biotechniques: Drug discovery and design, British and Indian Pharmacopoeia, Marine microbial antibiotics, Microbial therapeutic enzymes, Microbial pigments, Single cell proteins. Microbial Products and their bioprocesses.
