**Department-wise Action Taken Report on Feedback (2022-2023)**

IQAC collected feedback for the academic year 2022-2023 from students, teachers, alumni, and employers. It was further categorised and analysed.

IQAC communicated the observation to all the heads of the departments of the University and asked for recommendations from each department separately for each category of stakeholders.

**The major recommendations received from the departments are:**

- Upgradation of Syllabus
- Encouragement for innovative research.
- Smart Classroom and updated ICT Tools
- Soft skill, Pre-placement training and on-site induction
- Enhancement of Sports, Health care and hostel facilities.

**Action Taken by IQAC:**

After carefully going through all the recommendations, all the heads of the department were directed to speed-up necessary actions. In relations to the suggestions on syllabus, HODs were directed to place these recommendations in their respective Board of Studies (BoS) meetings for discussion and appropriate decision.

More Soft skill training and on-site induction programmes are to be conducted in every department. Actions have been taken to incorporate medical emergencies and hygiene in all the hostels. The sports and extracurricular activities at the University will be carried out more often on a regular basis by the concerned departments and clubs. The University has decided to provide Internet facilities throughout the campus. It is also planned to upgrade all the classrooms with smart boards and Wi-Fi facilities.

Sir,

The following recommendations are recorded and forwarded to IQAC for its further action

Stakeholders	Observations	Recommendations
Student	Students from the department are highly satisfied with the facilities provided in the department and University. Seeking improvement in the hostel and placement training.	Positive observation is highly acknowledged.
Teacher	Moderate responses are given for the suggestion on new courses. Teachers are moderately satisfied with the methods assessing student's performance and satisfied on the provision for knowledge and domain expertise sharing. Expected conducive environment for research and development. They are fairly satisfied with administrative support.	Conducive environment for research and development is already there at the department level. Chemicals and equipment's are given to the required staff members without any prejudice.

Alumni	Alumni of the department are satisfied with the facilities provided in the department and University. Expected to improvise the adequate facilities of clean water and healthy food at hostel. Further suggested to concentrate on training, placement opportunities, on- site induction and soft skill trainings.	As per the alumni feedback we acknowledge the positive response. the suggestions of the alumni viz., softskill training and placement opportunities will be accorded priority.
Employer	Employers are satisfied with the technical and practical skills of the graduates for carrying out any job role. Employers are highly content with the communication skills and digital skills of the graduates, workplace etiquettes, handling high end equipment and software relevant to industrial needs, practical knowledge about the subject and legal knowledge about the area of their work. Aim for advancement.	Further steps will be taken in to consideration for upgrading the personal and skill development.

Professor and Head  
Department of Chemistry  
Periyar University  
Salem-636 011.

The following recommendations are recorded and forwarded to IQAC for its further action.

Stake holders	Observations	Recommendations
Student	The students expected change for the better classrooms, computer internet facilities provided in the department. Desired for more placement trainings and competitive examinations in the learning facilities. Anticipating regular activities in sports.	Steps have been taken to install the projectors in the classrooms. More placement trainings will be arranged through PU Placement cell
Teacher	Teachers are highly contented with the design and expected a change in the new topics for a course. Faculties are highly pleased with the innovation acceptance in the department. Seeking administrative support in the incentive, recognition and appreciation are given for the contribution.	Administrative support in the form of incentive /recognition /appreciation may be given to the faculties for their contribution.
Alumni	The former students of the department seek improvement in fostering needs and entrepreneurial skills in the syllabus. Also need progress in the sports and cultural facilities available in the department and the University.	Three courses are newly introduced to improve the entrepreneurial skills to our students. Festival of Chemistry is being celebrated in the name of PUCHEMFEST from 2022 onwards
Employer	Employers feel moderate with the graduates' capacity to work with new equipment and latest technology. Need improvement in creative and problem-solving skills, workplace etiquettes, handling high equipment and software updating relevant to industrial needs and practical knowledge about the subject in the graduates from University. Expected self and environmental awareness.	Workshops/Seminars/Conferences are conducted periodically and students are encouraged to attend those events. Industrial Visit is taking place every year. Steps are taken to nurture self and environmental awareness.

**Respected Sir,**

The following recommendations are recorded and forwarded to IQAC for its further action.

Stakeholders	Observations	Recommendations
Student	Students are satisfied with the Academic, Teaching and Learning facilities. Further suggested for job prospective and new development in the curricula. Seeking facilities in the sports and canteen.	Quality teaching and Learning will be maintained. Additional facilities will be provided with the permission of authorities.
Teacher	The teachers of the department are content with the design and review of the syllabus. The teaching fraternity is gratified with the facilities provided for Research and Development in the Department. Suggested up grade in infrastructure facilities and innovation acceptance. Hoping for administrative support.	Quality curriculum will be followed
Alumni	The alumni are pleased with the facilities available for students in the University and the department. They suggest more progress in the pre-placement, soft skill training and on-site induction opportunities for better placements.	Career oriented courses have been introduced 1.Social Entrepreneurship 2. Computer Applications in Business
Employer	The employers are happy with the curriculum's relativity to employment and curriculum designed fundamental skills. Highly satisfied with the discipline and performance of the graduates and critical thinking skills. Concentrate on the curriculum that makes employees aware of the legal knowledge about the area of their work. Suggested improvement in decision making ability, open new ideas, work ethics, numeracy expertise, self and environmental awareness.	Steps are being taken to improve the softskills of the students through seminars and discussions

**Sub: Recommendations submission-reg.**

Ref.No: IQAC/ Feedback ATR /2022-2023 dt: 12.06.2023

Sir,

The following recommendations are recorded and forwarded to IQAC for its further action.

Stakeholders	Observations from the Data	Recommendations
Student	The learners expected up grade in the entrepreneurial course, job prospective, electives, environmental sustainability in the curriculum. Seeking improvement in the ICT tools, placement training and competitive examinations in the academic, teaching and learning facilities provided in the department. Classrooms, computer internet, hostel, extracurricular, health care and sports are expected to be advanced	The curriculum has been accordingly upgraded. The department requests the administration for the release of Rs 5 Lakhs sanctioned by the then Vice-Chancellor Prof. P. Kolandaivel in October 2018 as the department completed 10 years. This would help in facilitating the classrooms with smart boards and projectors. Students have always been encouraged to take part in extracurricular and sports activities. However a request for facilitating more sports activities would be made to the administration
Teacher	Teachers have appreciated the curriculum and the facilities that are made available. In research and development, all the faculty members are highly satisfied. Further aim for advancement.	-
Alumni	The former students of the department desired change for the better classrooms equipped with wi-fi projectors and smart boards. They highly suggest placement training, pre-placement training, on-site induction and soft-skill training opportunities in the department and University.	Representation has been made to the administration regarding smart boards. Wi-Fi facility is already available. Steps would be taken for conducting more pre-placement, placement and soft skill training.

Employer	Employers are extremely satisfied with the curriculum designed fundamental skills. High positive ratings to the entrepreneurship skills in the curriculum, problem identification, critical thinking, and problem-solving skills. Decision making ability, open new ideas, work ethics, initiate new ideas are to be considered for improvement.	Steps would be taken to implement the suggestions.

Professor & Head

### Stockholders Feedback - Action Taken

Stakeholder	Observations	Recommendations
Student	The learners in the Department desired job perspective and value-added courses in the syllabus. Placement training and lab facilities are expected to improvise in the academic, teaching and learning facilities. Seeking improvement in the hostel, sports, and computer internet.	The valued added courses and job-oriented courses has been already included in the curriculum according to the local, regional and national needs. Steps has been taken for the improvement of lab facilities and placement training. Free WiFi internet facility is available for the students in the Department to accesses the various learning resources.
Teacher	Faculties in the Department are extremely gratified with the design and review of the syllabus. In infrastructure facilities provided, the teachers are highly satisfied. Further aim for advancement.	The faculties are keen to interest to wet their hands on advancement technologies pertaining to their research thrust areas.
Alumni	The former students are moderately satisfied with all the facilities provided by the Department and University. Alumni of the Department feel content with the training and placement opportunities. It is further suggested for high level refinement in university and Department.	Necessary steps have been to strengthen the Department Alumni.
Employer	The employers are gratified with the curriculum's relatively to employment and the syllabus of the programme meets. Employers are extremely satisfied with the technical, practical skills, team work spirit of the graduates for carrying out any job role. Improve the process of identifying market gaps, suggesting ways and developing the new ideas. Also, need to improve the ability to use the digital technologies to promote products, service related to websites and blogs in the curriculum.	To create awareness for students pertaining to the ability to use the digital technologies to promote products, service related to websites and blogs through group discussion and to be included in the curriculum.

From Prof. Dr. S. Venkateswaran Professor and Head Department of Geology Periyar University, Salem - 636011	To The Director Internal Quality Assurance Cell Periyar University, Salem - 636011
---	---

Sir,

The following recommendations are recorded and forwarded to IQAC for its further action.

Stake-holders	Observations from the data	Recommendations
Student	The learners are content with the syllabus and the overall facilities provided in the University. They expect competitive examination can be focused in the Academic teaching and learning facilities. Seeking progress in sports, extracurricular and advancement in Hostel, Amenity and Health Care Services.	<ul style="list-style-type: none"><li>o The students are motivated to take part in the competitive examinations conducted by various agencies. In addition the faculty members facilitate to the students.</li><li>o Students are instructed to take part in the sports and extracurricular activities.</li><li>o The students are advised to utilize the facility are available in the Hostel, Amenity and Health Care centre in our university.</li></ul>
Teacher	Teachers suggested filling the skill gap among the learners. Recommended syllabus should be designed on the local, national and international level requirement. Suggestion on new topics for a course is expected. Moderate ratings have given for infrastructure facility. Innovation acceptances are to be refined. Seeking administrative support in representing faculties in the governing bodies and addressing redressed grievances, also recognizing incentive and appreciation given for contribution.	<ul style="list-style-type: none"><li>o The curriculam has been designed based on requirements of local, regional, national and international demands.</li><li>o The priority has given to emerging trends of geosciences such as the application of geospatial technology, environmental issues and remedial measures.</li><li>o The students are availing infrastructure facilities viz. internet, library, greenery and eco-friendly campus.</li><li>o The grievenses addressed by the students has to be acknowledged and finding remedies in times.</li></ul>
Alumni	The former students of the Department have appreciated the syllabus. They seek training and placement should be advanced with final placements. Adequate soft skill trainings, on-site induction are expected to bridge the gap between industry and academia. They expect the current programme should enable a multidisciplinary career.	<ul style="list-style-type: none"><li>o The most visible involvement of the alumni is by contributing their time to participate in activities of the university, mentoring students, leveraging their contacts to support university administration, faculty and students in their various endeavours.</li></ul>
Employer	Employers are highly satisfied with the overall facilities provided in the Department. They suggest for advancement. High ratings are given by the Employers.	<ul style="list-style-type: none"><li>o The Department has taken necessary steps to include the latest techniques in teacing and research activities.</li></ul>

Sir,

Herewith I am submitting recommendation of observation from the feed back given by the stake holders for the year 2022 - 2023.

Stakeholders	Observations	Recommendations
Student	Students desired for the change for the betterment in the supportive courses and environmental sustainability in the curriculum. Lab facilities and placement training can be improvised. Seeking advancement in hostel, canteen and sports.	Supportive courses already included in the curriculum environmental sustainability courses will be included in the next BOS. Placement training will be conducted in future. Suggestions are taken into account to improve the hostel, canteen and sports facilities.
Teacher	Teachers have appreciated the overall curriculum and the facilities in the department. Pleased with the Infrastructure facilities provided and expecting adequate clean water. The fraternities of the department are highly satisfied with the Administrative Support given by the University.	It is recommended to provide clean water
Alumni	The former students of the department have appreciated the needs and the facilities provided in the department and the University. Further suggested for high level advancement.	Emerging technologies will be updated in the curriculum regularly. Students are equipped to make use of technology to provide services in the library.

## Department of Library and Information Science

Dr.C.Murugan,  
 Professor & Head

Employer	It is suggested to improve the employability, the syllabus of the programme meets the requirements of the industry, curriculum designed to include the fundamental skills and the curriculum encompassing entrepreneurship skills. The syllabus should encourage the research work and make the employee aware of the legal knowledge. Must pay close attention to the discipline and etiquette of the students. Need more care on adaptability, open to new ideas. decision making ability and work ethics	The OBE Syllabus has to be given simultaneously with practical and advanced courses, such as skill and industrial. Internships and Online courses were included in the curriculum for better enhancement of skills and knowledge of students.

Sir,

Sub; Periyar University-IQAC-Stakeholders feedback-Recommendation-Reg.

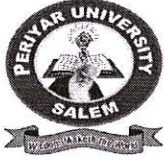

Stakeholders	Observation	Recommendation
Students	The students of the department are satisfied with the curriculum and the facilities provided by the department and University. Also, felt content with the Academic, Teaching and Learning activities of the department. Further seeking advancement in hostel, sports and canteen	1.The students of the First year MBA requested for Dual specialization (As per TANSCHÉ syllabus, they are provided only one specialization) 2.The students of first year MBA requested to have a separate subject for Research methodology. 3. The students of second year MBA requested to include more Value Added courses for employability.
Teacher	Teachers have appreciated the overall curriculum and the facilities available in the campus. All the teachers in the department are highly satisfied with the Design and Review of the syllabus and also delighted with the Infrastructure Facilities and Inovating Acceptance. Further aim for advancement.	1.The teachers suggested to construct a large seminar hall to accommodate all the students for seminars/conferences 2. The teachers also requested the University to provide Seed money for research for young teachers.
Alumni	The graduates of the department have graded positive responses with the facilities provided for the student in the department and University. They seek advancement in the wi-fi and hostel facilities provided. Further expected change for the better advancements in the placement opportunities, pre-placement training, on site induction and soft skill trainings in the department.	The Alumni graduates requested to have annual meeting of Alumni of all batches periodically.
Employer	Employers need improvement with the communication skills, digital marketing skills, entrepreneurship skills, decision-making ability and employee commitment. Expected development in the new processes and products in the syllabus that encourage research work. Give more attention to leadership, taking responsibility, self and environment awareness.	Employers are expecting the specialization of students in the emerging areas like AI, SCM, Busniess Analytics and Fintech services

8.9.2023

Sir,

The following recommendations are recorded and forwarded to IQAC for its further action on the feedback collected for the Department of Nutrition and Dietetics, from different stake holders for the academic year 2022-23.

Stakeholders	Observations	Recommendations
Student	The learners are gratified with the updated syllabus and the overall facilities provided in the University and the Department. Learners feel extremely gratified with the academic, teaching and learning facilities. Expected more progress in the sports.	Students will be entertained to participate in sports activities. The Department faculty members will give their best to maintain the standards and good will of the students.
Teacher	Teachers have appreciated the overall curriculum and the facilities available. The teachers are highly gratified with the Innovation acceptance, Research and Development in the Department. Further aim for advancement.	The teachers will aim for advancement and the good work of all the faculty members in terms of teaching, Innovation, and Research and Development will be persistently continued.
Alumni	The Alumni have appreciated the facilities available for students and expected improvement in the pre-placement and soft skill training provided in the Department and the University.	The Department will focus on the measures needed for improvements in the pre-placement and soft skill training.
Employer	It is suggested to improve the ability to use digital technologies to promote product and services in the curriculum encompasses entrepreneurship skills. Expected to aim for advancement.	In the forthcoming Board of studies curriculum will include the use of technologies and entrepreneurship skills wherever possible.

Department observation based on the feedback of stakeholders

Academic Year 2022-2023

Stakeholders	Observation	Recommendations
Student	The students of the department expected up grade in the job prospective and entrepreneurial courses in the curriculum. Expected advancement in the placement training and competitive examinations provided in the Academic, Teaching and Learning activities. Desired for active progress in sports and extracurricular.	In the academic year 2023-2024, the job and industrial oriented courses, Advanced Spectroscopy, Characterization of Materials, Medical Physics, Solid Waste Management, Sewage and Waste Water Treatment and Reuse and Solar Energy Utilization have been introduced in the curriculum. The Department of Physics has assigned a faculty member to conduct the placement training and coaching for NET/SET/GATE examinations in periodic manner. The Department of Physics is insisting the students to involve extracurricular activities like NSS, village adoption and sport activities.
Teacher	Teachers are extremely satisfied with the curriculum and Infrastructure Facilities provided in the department. Teachers are highly contented with the Innovation acceptance, research and development and Administrative Support provided by the University. Further aim for advancement.	The Department of Physics is planning to apply for UGC-SAP and DST-FIST (Level-2) to augments the infrastructure facilities.
Alumni	The former students of the department have appreciated the facilities available for the students both in the department and the University. Further suggested for high advancement.	Steps will be taken to purchase high advanced instruments.

Employer	Need improvement in technical and practical skills. Teamwork spirit, ability to use digital technologies to promote products and services should be encouraged in the curriculum encompassing entrepreneurship. Development is needed in the new processes and products of the research work. Curriculum that makes the employees aware of the legal knowledge must be concentrated. Tolerance to stress, leadership taking responsibility, self and environmental awareness should be taken care.	The students are encouraged to develop a new materials and products through their research projects and to take their research work in the national level laboratories. To create the awareness of the legal knowledge, Human Rights course is included in the curriculum. Guidance is giving for Tolerance to stress, leadership taking responsibility, self and environmental awareness trough mentor-mentee scheme.

**DEPARTMENT OF STATISTICS – STUDENTS FEEDBACK – ACTION TAKEN REPORT**

<b>Stakeholders</b>	<b>Observations</b>	<b>Recommendations</b>
Student	Learners desired for advancement in job prospective, entrepreneurial course, skill development and social responsibility in the design of the syllabus. Seeking improvement in the placement training and the usage of ICT tools. Anticipated upgrade in hostel, recreation and canteen.	Students will be encouraged to participate in co-curricular activities. Additionally, the department aims to provide more guidance to students regarding internship and placement opportunities in various organizations. To facilitate better comprehension and interaction among students, faculty members will conduct additional remedial classes, deliver PowerPoint presentations, and organize short quizzes and paper presentations within the department. Moreover, guest lectures and online events will be organized to further engage students.
Teacher	All the teachers of the department are highly satisfied with the curriculum and the facilities provided for research and development. Satisfied with the innovation acceptance and infrastructure facilities. Further aim for advancement.	The department has gathered suggestions from each faculty member and aims to address shortcomings and improve both as individuals and as a department. They plan to increase the use of ICT tools to enhance the teaching-learning experience, engage students in research projects and field surveys, and participate in outreach programs. The entire department agrees on the need for further enhancement of their ICT tools and expertise.
Alumni	The former students of the department expected upgrade in the career - oriented, courses relevant to real-life application in the syllabus. They suggested to improve the opportunities provided for Training and Placement and soft skill training in the department.	The flexibility in the curriculum allows students to choose and explore different disciplines within their program, as well as pursue areas of interest outside their main field of study, which helps enhance their employability skills. The program's regulations also provide elective courses and the opportunity to take online courses through platforms like SWAYAM and NPTEL, with the possibility of transferring credits upon successful completion.
Employer	Employers are recommended to work with cutting edge technology, new types of equipment and materials. Need adequate improvement in the use of digital technologies to promote product and services. Suggested to concentrate on legal knowledge in the curriculum.	Considering the present scenario, curriculum is well updated. The educational programme has been modified or adjusted to meet the changing needs and demands of the students and the industry. Regarding new courses, these should be added after screening the current and emerging demands of the society. The curriculum is frequently updated to cater to the needs of the industry and society at large. Various packages can be introduced for honing the technical skills.

The Director IQAC, Periyar University, Salem

Sir,

The following feedback recommendations (2022-2023) are recorded and forwarded to IQAC for its further action.

Stakeholders	Observations	Recommendations
Student	Students desire for a change in job perspective, entrepreneurial courses and social responsibility in the design of the current syllabus. Expected improvement in the placement training, competitive examination and lab facilities in the Academic, Teaching and Learning. Hostel, extracurricular, sports, canteen and recreation are to be improved. Participation in the extension activities can be focused.	According to the suggestion of the students the job oriented course works have been incorporated in the revised syllabus. Further the placement for Zoology students are mainly teaching and research, in this connection faculty members are motivating them. The Department is having well equipped laboratories and teaching aids. Every year our students are doing survey of fauna and going to the adopted village (Saminayakkan patti) to create awareness about the agriculture and pest management, dengue, COVID-19, sanitation and better environmental concerned among the rural people and School students etc.
Teachers	Teachers are highly satisfied with the overall curriculum, research and development, innovation acceptance and infrastructure facilities provided in the department and University. Further aim for advancement.	The Department request the authorities to provide the furniture and other facilities in time. The purchase section took much more time to process the files. That can be monitored and speedup the process.  The Department of Zoology is aiming to establish the Cell Culture Centre in our Campus.  Department took initiative to start M.Sc., Biomedical Science Program.
Alumni	The former students of the department expected improvement in the internet, wi-fi, and hygienic canteen, classroom with projectors, smart boards, regular cultural events and sports. They suggested advancement in the hostel, training and placement facilities.	The Department already purchased the Smart board and providing the internet facilities through Computer Centre. Equipments are augmented in the indoor stadium and make them available for students.
Employer	Employers suggested improving the cutting-edge technology, new types of equipments and materials. Expected to concentrate on technical, practical, digital and communication skills. Take care on the curriculum encompassing entrepreneurship skills and critical thinking skills.	The department requested the authority to provide high end equipments like Tissue Auto Processing Unit (30.00 Lakh). Further the Department will approach the funding agencies to purchase Bio-molecular Imaging System – <i>in vivo</i> Skill oriented papers are incorporated in the revised syllabus.
