SYLLABUS FOR

B.A. SOCIOLOGY

(SEMESTER PATTERN)

(FOR THE STUDENTS ADMITTED FROM THE ACADEMIC YEAR 2023-2024 ONWARDS)

Introduction

B.A Sociology: Programme Outcome, Programme Specific Outcome and Course Outcome

Sociology is the scientific study of society, sociology involves in the study of the social lives of people, groups, and societies. It is the study of human behaviour as social beings as it is the scientific study of social aggregations, the entities through which humans move throughout their lives. Sociology is an overarching unification of all studies of humankind, including history, psychology and economics.

Sociology provides many distinctive perspectives on the world, generating new ideas and critiquing the old. The field also offers a range of research techniques that can be applied to any aspect of social life. Sociologists understand social inequality, patterns of behaviour, forces for social change and resistance, and how social systems work. Sociology is an exciting discipline with expanding opportunities for a wide range of career paths.

A degree in sociology is an excellent springboard for entering into government and private sectors as well as industry and organizations. Hence, career opportunities available to those with a sociology degree are numerous and diverse. A sociology degree opens various avenues for further progression by pursuing higher degrees too. Obtaining a bachelor's degree in sociology enables the student to become educator and researcher. Practicing sociologists who have advanced degrees can also become research analysts, survey researchers, urban planners, community developers, social policy analysts, social project managers, HR professionals, media researchers etc,.

Nature and Extent of the programme

A three-year bachelor degree in sociology helps to acquire the knowledge on structure and functions of society, the basic social institutions, Indian social system by understanding social mind of society. To focus on the functioning of the primitive and modern, rural and urban society and its problems that affects community health. Being Aware on the contributions of social thinkers towards the development of social thought know the social aspects of political system, impact of population on society and research methodologies. Develop a clear cut idea on the developmental strategies of industries and its global impact.

Aim of the programme

     To provide basic sociological knowledge in a student centric, teaching learning environment. The qualified and experienced staff helps students to get a clear knowledge of sociology and its various branches. We strive to equip our students with skills to enter the labour markets or move on to higher level training in various fields.

     Sociology is a valuable major for students planning careers in social research, counseling and social work, criminal justice, population studies, business and market research. In addition, the program provides them with a strong preparation for post-graduation in law, community planning, public administration, and criminology and labour studies.

Programme outcomes (PO) of B.A degree programme in Sociology

- ➢ Develop awareness towards the primary concepts of Sociology, related to its origin, basic social institutions; social groups its evolution, progression and deterioration.

CLO5	√	√	√	√	√	√	√	√	√	√

1. **Highlights of the Revamped Curriculum**:

➢ The programme explains preliminary concepts, theories and methodologies specific to the discipline of Sociology.

➢ Analyze the social structures, processes, institutions and relationships from a sociological perspective.

➢ The programme will enhance the students' development and build the capacity to communicate effectively and use sociological knowledge to better understand society.

➢ The learners will be equipped with the ability to undertake research on various socio-related issues which will be helpful for them in research career for the increasing demand in business, government, industry, social welfare, advertising, administration and many other areas of community life.

➢ The course will serve to develop desirable social engagements and interventions addressing social issues in international, national and regional contexts.

➢ The course will assist the students to understand the processes of growth, change, and development of Indian society.

➢ The course will develop students' logical and reasoning ability, and Scientific temperament.

➢ It will enhance students' ability to be active and informed citizen and influence societal choices and policies.

➢ Studying this course will change students' outlook regarding the problems of crime, which will be greatly important for understanding and solving social problems.

➢ The course will help the students to study and understand the weaker section (minority, tribal and marginalized communities) problems scientifically, this will help government welfare undertaking and policies.

Value additions in the Revamped Curriculum:

Semester	Newly introduced Components	Outcome / Benefits
I	**Foundation Course** To ease the transition of learning from higher secondary to college level education, providing an overview of Sociology subject relate to the general education by expanding the scope of their academic pursue.	• Instil confidence among students • Create interest for the subject • Broaden the scope of academic studies.
I, II, III, IV	**Skill Enhancement papers** (Discipline centric / Generic / Entrepreneurial)	• Students will be equipped with research skills. • Skilled human resource • Students are equipped with essential skills to make them employable
		• They will be trained on Computing skills and exposure on latest computational aspects
		• Data analytical skills will enable students gain internships, apprenticeships, field work involving data collection, compilation, analysis etc.
		• Learning speaking skills, presentation skills and other such soft skills will help students to equip with basic employable skills. • Entrepreneurial skill training will provide an opportunity for independent livelihood • Generates self – employment • Create small scale entrepreneurs
		• Discipline centric skill will improve the Technical process of of solving real life problems using ICT tools
I, II, III, IV, V & VI	Elective papers- An open choice of topics categorized under Generic and Discipline Centric	• Broaden the scope of knowledge • Strengthening the domain knowledge • Introducing multi-disciplinary, cross disciplinary and inter disciplinary nature will help students gain a comprehensive perspective on understanding reality • Students are exposed to Latest topics on Computer Science / IT, which will help them get into

		cooperate world.
II year Vacation activity	Internship / Industrial Training	• Practical training at the NGOs,/ Industry/ Banking Sector / Private/ Public sector organizations / Educational institutions, enable the students gain professional experience and also become responsible citizens.
V Semester	Project with Viva – voce	• Self-learning is enhanced • Application of the concept to real situation is conceived resulting in tangible outcome
VI semester	Professional Competency Skill Enhancement Course	• Learning professional skills and implying it in problem solving will enhance student with professional employable.

Skills acquired from the Courses	Knowledge, Problem Solving, Analytical ability, Professional Competency, Professional Communication and Transferrable Skill

6. Suggestive Topics in Core Component

- Origin, Nature and Scope of Sociology
- Primary sociological concepts
- Social Institution
- Social Groups
- Socialization
- Indian Social Structure
- Marriage
- Family
- Kinship
- Social Changes
- Collective Behaviour
- Aggression and prejudice
- Social Stratification
- Social process
- Social Control
- Peasant and Tribal Movement
- Social Reform movement
- Sociological Thinkers
- Social demography
- Research methodology
- Rural and Urban Society
- Media and mobilization

7. Suggestive Topics in Elective Courses (Generic / Discipline-centric)

Group I:

- Social Cognition
- Interpersonal Relations
- Group Behaviour
- Kinship

- Culture
- Ethnicity
- Migration
- Fertility
- Mortality
- Population
- Demographic Transition
- Ageism
- Entrepreneurship
- Skill Development
- Value Education
- Moral Development
- Value Clarification

8. Suggestive Topics in Skill Enhancement Courses (SEC)

Group III - Skill Enhancement Courses (SEC)

- Active Listening
- Written Communication
- Oral Communication
- Contextual Learning
- Inclusive Language
- Know the Audience
- Job Performance
- Organizational Behaviour
- Turnover
- Autocratic Leadership
- Transformational Leadership
- Positive Outlook
- Good Listener
- Gestures

- Postures
- Life Skill Education
- Emotional Intelligence

9. **Suggestive Topics in Ability Enhancement Courses (AECC)**

   Group IV –Ability Enhancement Courses (AECC)

   - Data Management
   - Desktop Publishing
   - Organization
   - Promotion
   - Production
   - Distribution
   - Problem solving
   - Specialization
   - Narration
   - Imagination
   - Character Development
   - Design
   - Creativity

Prerequisites

Graduate Attributes

Students completing the UG programme in Sociology would acquire the following skills, qualities, knowledge and attitude.

Sl. No.	Acquire attributes	Students capabilities after completing the programme
1	Knowledge Domain	To apply the knowledge of the sociological theories in the Papers will help students to have the understanding the history and emergence of the subject and the papers on development, social psychology and others are opening wider career opportunities for the students.
2	Self and Professional development domain	The papers will help the student to develop his/her ability to have a more critical understanding, problem solving and it will help them to perform well in the professional domain.
3	Societal contribution	Society and human are always connected and the study of the subjects will help the students to have the understanding of the social conditions and its problems. It will help them to contribute to the development of society and its smooth functioning.
4	Research domain	The development of subject and the society needs better involvement in the research areas. The papers will help the students to develop the research mind set and it will prepare the students with the critical thinking, objectivity, unbiased and creativity.
5	Higher Studies	To enable the students to pursue the higher study options in the subject, it is important to give deep understanding of the subject with the required skills like communication, presentation etc.
6	Critical thinking and problem solving skills	The students will acquire skills that will help them to understand the social reality with critical analyses and with the knowledge of theoretical perspectives and methodological, they will be able to find constructive solution to the social problems.
7	Communication and presentation skills	Communication is the key to success and the students will exhibit exceptional communication skills and will be learn the appropriate presentation skills.
8	Ethical awareness and responsibilities	Enable the students with ethical awareness, socially concerned and be a responsible individual in the society.

SEMESTER - I

First Semester

Course	Core I
Course Code	**23USOCCT01**
Title of the Course:	**INTRODUCTION TO SOCIOLOGY**
Credits:	**5**
Learning Objectives	1. The course will give an overall understanding of sociology. 2. The aim of the course is to explain the concepts of sociology. 3. The course will make the students know society's structure and functions. 4. The aim of the course is to explain the different social stratifications and their functions in society. 5. The course will also explain the process of social change and factors related to social change.
Course Outcomes	1. The students can understand the origin and development of sociology. 2. The students can also understand the discipline of sociology and the sociological perspective. 3. The students can recognize how sociology differs from and is similar to other social sciences. 4. The students can explain the different social institutions and their impact on sociology. 5. The students can apply the knowledge of sociology and participate actively in civic affairs.

3-Strong   2-Medium   1-Low

Course	Core VIII
Course Code	23USOCCT08
Title of the Course:	**RESEARCH METHODOLOGY**
Credits:	5
Learning Objectives	1. The aim of the study is to understand the core themes such as description, presentation and argumentation in statistical/quantitative contexts. 2. The course will able to execute theoretical and empirical methodology. 3. The aim of the study is to let the students to acquire proper research methods, sampling techniques, designs etc. 4. To understand the importance of social research in analyzing social problems. 5. To know the statistical methods in conducting research.
Course Outcomes	1. Student will attempt to sensitize a critical outlook at the existing perspectives and methods and to evolve conceptual clarity, which can lead them in their future research. 2. Teaching certain quantitative methods, statistical techniques and qualitative methods to collect and analyze the data would help them organize and analyze the information gathered by them. 3. Student will learn to write a research proposal and reports. 4. Student will understand skills about Collecting Data, Writing Bibliography and Analyzing data. 5. Course will enhance the ability of the students to apply the research methods to practical issues.

Pre-requisites, if any:	
Units	
I	**Science and Scientific Methods** • Scientific research • Types, importance and uses • Steps in social research • Theory – fact and hypothesis
II	**Research Design** • Types- Descriptive, explorative, experimental- Diagnostic and comparative • Functions of research design
III	**Quantitative Research** • Survey • questionnaire • Experimental Research • Content analysis
IV	**Qualitative Research** • Case study • Interview • Projective technique. • Ethnography • Discourse Analysis • Focus Group
V	**Sampling methods and Report Writing** • Types- probability and non-Probability sampling. • Report Writing- steps in report writing

Course	Elective – IV
Course Code	23USOCEO04
Title of the Course:	**SOCIAL GERONTOLOGY**
Credits:	3
Learning Objectives	1. The course introduces the concept of Social Gerontology to the students. 2. It helps the students to understand the Sociological aspects of aging. 3. The aim of the course is to identify the needs, strengths and resources of elderly people in the society. 4. The course also analyzes the various dimensions of ageing. 5. The course also explores the support system of the elderly people.
Course Outcomes	1. The students will be able to distinguish the terms Gerontology and Geriatrics 2. The students will be trained to apply the theories of ageing as a problem-solving technique. 3. The students can interpret the psychological, economic, physical and social problems of elderly people. 4. The students can critically assess the problems of the aged women in our society. 5. They can also understand the impact of globalization in the life of elderly people.
Pre-requisites, if any:	
Units	
I	**Introduction to Social Gerontology** • Definition and Meaning

	• Evolution of Social Gerontology • Scope and Importance • Gerontology & Geriatrics
II	**Theories of Aging** • Sociological Theories • Disengagement Theory • Activity Theory • Conflict Theory • Age Stratification Theory
III	**Understanding the Aged** • Dimensions of Aging • Support Systems for the Aged
IV	**Problems of the Aged** • Health • Housing • Employment • Retirement • Exploitation • Problems of the Aged Women • Institutionalization of the Care of the Aged
V	**Re-examining the concept of the aged** • Impact of Industrialization, Urbanization and Globalization • Policies and Social Legislations for aged in India and Tamil Nadu. • Re-evaluation and Utilization of the Senior Citizens Skills and Time

Course	Skill Enhancement Course - VII
Course Code	**23USOCSE07**
Title of the Course:	**Life Skills Education**
Credits:	**2**
Learning Objectives	1. The course will support students to learn the need and importance of life skills to the development of their life. 2. The course will assist the students in make confidence and creating effective social networks. 3. The course will help the students enhance their creative thinking and effective strategies for problem-solving. 4. The course will help the students create consciousness of their health and well-being. 5. The course will assist students in exploring their career options and pathways.
Course Outcomes	1. Students can apply life skill education whenever need in their daily life. 2. The students can learn effective networking and social skills and understand diversity and cultural sensitivity. 3. The students can generate ideas of creative thinking and innovation and can make responsible decisions. 4. The students can now apply financial planning and health awareness through life skill education. 5. The students can be ready for job interview skills and workplace ethics.
Pre-requisites, if any:	
Units	
I	**Introduction to Life skills education**

	• Definition, Need and significance life skill; • Evolution • Development of the Concept of Life • Skill Education
II	**Effective Communication and Interpersonal Relationships** • Active listening, Assertiveness and conflict resolution • Digital communication etiquette and online safety • Understanding diversity and cultural sensitivity (IR) • Respecting boundaries and consent • Effective networking and social skills
III	**Critical Thinking and Problem Solving** • Analytical and logical thinking • Creative thinking and innovation • Problem-solving strategies and decision making • Identifying and evaluating information sources • Ethical reasoning and responsible decision making
IV	**Financial Literacy Health and Wellness** • Budgeting and financial planning • Savings and investments, credit and debt and financial decisions • Physical health and well-being • Mental health awareness and self-care • Nutrition and healthy eating habits
V	**Career and Employability Skills** • Exploring career options and pathways • Resume writing and job interview skills • Professional etiquette and workplace ethics

Course	Skill Enhancement Course - VIII
Course Code	**23USOCSE08**
Title of the Course:	**Basic Computer Applications**
Credits:	**2**
Learning Objectives	1. The aim of the course to provide knowledge of Components of a computer system. 2. The course will offer information of operating system 3. The course will help the students know about the process of software. 4. The course will helps the students to get knowledge of web browsing

	online communication
	5. The course will also provide information of Ethical considerations in computer usage.
Course Outcomes	1. The course will enhance the ability of Students in basic knowledge of computer application.
	2. The course will attempt sensitize types of operating system and file managements.
	3. The students can enable with micro soft word and excel processing.
	4. The students can get aware of internet safety and security.
	5. The students can sensitise about the privacy, data protection, cyber security and online threats.
Pre-requisites, if any:	
Units	
I	**Introduction to Computers** • Introduction to computers and their applications • Components of a computer system • Computer hardware, software, Input and output devices • Computer memory and storage
II	**Operating Systems** • Introduction to operating systems • Types of operating systems (Windows, macOS, Linux) • File management and organization • Basic troubleshooting techniques
III	**Word and Excel Processing** • Introduction to word processing software (Microsoft Word, Google Docs Microsoft Excel, Google Sheets) • Creating, editing, and formatting documents • Inserting tables, images, and other objects • Creating, formatting, and editing spreadsheets (Excel) • Data entry, manipulation, Charts and graphs (Excel)
IV	**Internet and Email**

	• Web browsing • Online communication and social media • Email basics (creating accounts, composing, sending, and managing emails) • Internet safety and security
V	**Computer Ethics and Legal Issues** • Ethical considerations in computer usage • Copyright and intellectual property rights • Privacy and data protection • Cyber security and online threats • Social implications of technology

Method of Evaluation:

Internal Evaluation	End Semester Examination	Total	Grade
25	75	100	

Methods of assessment:

Recall (K1) - Simple definitions, MCQ, Recall steps, Concept definitions

Understand/ Comprehend (K2) - MCQ, True/False, Short essays, Concept explanations, Short summary or overview

Application (K3) - Suggest idea/concept with examples, Suggest formulae, Solve problems, Observe, Explain

Analyse (K4) - Problem-solving questions, Finish a procedure in many steps, Differentiate between various ideas, Map knowledge

Evaluate (K5) - Longer essay/ Evaluation essay, Critique or justify with pros and cons

Create (K6) - Check knowledge in specific or offbeat situations, Discussion, Debating or Presentations

Mapping with Programme Outcomes:

Map course outcomes for each course with programme outcomes (PO) in the 3-point scale of Strong, Medium and Low

	PO 1	PO 2	PO 3	PO 4	PO 5	PSO 1	PSO 2	PSO 3	PSO 4	PSO 5
CO 1	3	3	3	3	3	3	3	3	3	3

Course	Core XII
Course Code	23USOCCT12
Title of the Course:	Project cum Viva
Credits:	4
Learning Objectives	1. To assess the student dissertation for the award of degree, jointly by supervisor and one external examiner affiliated to the University of Madras. 2. To develop confident and empowers student for future career. 3. To better prepare students for solving real-world problems and issues while teaching them, encouraging giving additional information related to their topic.

	4. To developed student interpersonal skills.
	5. To encourages students to develop a balanced, diverse approach to solving real-societal problems, both on their own and in a team
Course Outcomes	1. It gives the student a skill such as problem solving, and helps to develop additional skills integral to their future, such as critical thinking and time management.
	2. It will enhance their knowledge through particles experience.
	3. It will be developed interpersonal skills and decision-making skills.
	4. The project will give a platform to demonstrate his/her abilities.
	5. Teacher will learn more about the student's strength and weakness, which will help the teacher to better enhance and improve the student's ability.

Course	Elective - V
Course Code	23USOCEO05
Title of the Course:	**SOCIAL STATISTICS**
Credits:	3
Learning Objectives	To provide the basic knowledge on statistics in social research. To learn about the usage of measures of central tendency in different situations. To bring out the importance of dispersion measures in social research analysis. To understand the basic need and function of correlation and test of significance. To address the statistical software and big data analysis used in social research.

Course Outcomes	To provide the basic knowledge on statistics in social research.
	To learn about the usage of measures of central tendency in different situations.
	To bring out the importance of dispersion measures in social research analysis.
	To understand the basic need and function of correlation and test of significance.
	To address the statistical software and big data analysis used in social research.
Pre-requisites, if any:	

Units		

Unit: 1	**Introduction**	**Hours: 12**
Meaning, Nature, Characteristics, Functions, Relevance and Scope of Social Statistics - Limitations of Statistics - Sociology and Social Statistics.		
Unit: 2	**Measures of Central Tendency**	**Hours:12**
Meaning, Nature, Purpose -Kinds of Central Tendency: Mean (Arithmetic & Geometric) – Median – Mode -Merits and Limitations		
Unit: 3	**Measures of Dispersion**	**Hours:14**
Meaning, Nature, Purpose - Kinds of Dispersion: Range, Quartile Deviation, Mean Deviation, Standard – Deviation -Merits and Limitations		
Unit: 4	**Correlation**	**Hours:14**
Correlation: Types – Means of Computing Correlation and Interpretation-Karl Pearson's Coefficient of Correlation – Spearman's Rank Correlation		
Unit: 5	**Tests of Significance**	**Hours:14**
Meaning and Purpose of Tests of Significance - Chi-Square - ‒t‖ Test		
	Total Hours	**66**

									CIA	External	Total
23USWPC01	**COMPUTER TRAINING**	**PROFESSIONAL COMPETENCY SKILL**	30				2	2	25	75	100

YEAR	**2023 onwards**
SEMESTER	**VI**
PRE-REQUISITE	**A basic idea on the generic uses of computers.**

Learning Objectives

1	To introduce the basic knowledge of computers.
2	To understand the various input and output devices.
3	To learn about productivity/ application software that is basically used.
4	To acquire practical skills for working with computers.
5	To operate computers on own.

Course Outcomes

On the successful completion of the course, students will be able:

CO1: To comprehend the evaluation and types of computers.	
CO2: To distinguish the various components of computers and their uses.	
CO3: To operate the computer and execute assignments related to it.	
CO4: To compare and contrast the different application software personal use.	
CO5: To select the appropriate application and work on it for documentation and to apply the professional competency skill wherever applicable.	

Syllabus

UNIT I
(6 Hours)
Introduction to Computers: Evolution, Types, Major Components- CPU, Peripheral devices,RAM, Hardware Memory, Input & Output devices, and Software.

UNIT II
(6 Hours)
Productivity / Application Software: Word document -Word application, creating a word file,basic and advanced formatting.

UNIT III **(6 Hours)**
Productivity / Application Software: Excel -Workbook and worksheet, working in worksheets,creating tables and charts.

UNIT IV **(6 Hours)**
Productivity / Application Software: PowerPoint – Creating presentations, using templates,and inserting tables and charts.

UNIT V **(6 Hours)**
Internet: Internet security, Web Browsers, Search Engines, file sharing, and downloading.
