ABOUT THE UNIVERSITY

Periyar University, established in 1997 in Salem, Tamil Nadu, is an A++ NAAC-accredited state university with UGC 12(B) and 2(f) status. It is the only state-run university in Tamil Nadu to receive a four-star IIC rating for three consecutive years (2022–2024). The University secured 56th rank in NIRF 2024 among Indian universities. It is recognized for interdisciplinary education, quality research, and strong academic integrity.

ABOUT THE DEPARTMENT

The Department of Computer Science at Periyar University, established in 2002, offers MCA, M.Sc. (Computer Science), M.Sc. (Data Science), and Ph.D. programmes in core and emerging areas. It emphasizes a dynamic curriculum, academic excellence, and skill development. Faculty actively contribute to funded research and reputed publications. The department fosters ethical computing and prepares graduates for successful careers in industry and academia

ABOUT THE CONFERENCE

ICAITSC 2026 is a multidisciplinary conference that brings together academia, industry, and researchers to discuss recent advances and emerging trends in artificial intelligence and smart computing. It focuses on key areas such as AI for healthcare, computer vision, machine learning, data science, high-performance computing, and sustainable AI applications, fostering innovation that bridges theory with real-world impact.

CALL FOR PAPERS

Authors are invited to submit original, unpublished research papers not under review elsewhere. Only accepted and registered papers will be scheduled for presentation and included in the proceedings, with at least one author required to complete registration. All submissions must be made exclusively through the Microsoft CMT portal; new users must create an account before submission. The conference will focus on **artificial intelligence techniques and smart computing applications** across diverse domains, including but not limited to:

Track 1: AI for Healthcare & Bioinformatics

Medical imaging, clinical intelligence, omics analysis, precision medicine.

Track 2: Computer Vision & Imaging

Deep learning, image/video analytics, detection, segmentation, multimodal vision.

Track 3: Signal Processing & Edge Intelligence

Smart sensing, IoT, time-frequency analysis, edge and energy-efficient AI.

Track 4: Machine Learning & Computational Intelligence

Deep learning, evolutionary algorithms, reinforcement learning, Explainable AI.

Track 5: Data Science, Big Data & HPC

Big data analytics, cloud and parallel computing, privacy-preserving analytics.

Track 6: AI for Agriculture & Sustainable Systems

Precision agriculture, environmental intelligence, drone-based sensing.

PUBLICATIONS

Selected and presented high-quality papers will be published as **book chapters in the Scopus-indexed** edited volumes “Beyond Algorithms: Next-Gen AI for Health, Agriculture, and Humanity” (**CRC Press, Taylor & Francis Group publication**) or “Computational Intelligence & Knowledge-Based Systems: Models, Algorithms & Applications” (**Wiley publication**), subject to the respective publisher’s scope and editorial policies. Papers not selected for inclusion as book chapters will be considered for publication in the **ISBN-registered conference proceedings, with DOI** assigned where applicable.

Online mode of presentation is permitted only for participants from states other than Tamil Nadu.
