UNIVERSITY AT A GLANCE

The Government of Tamil Nadu established the Periyar University in Salem on 17th September 1997 as per the provisions of the Periyar University Act, 1997. The University is named after the Great Social Reformer E.V. Ramasamy affectionally called "Thanthai Periyar". The University aims at developing knowledge in various fields to realize the maxim inscribed in the logo "Arival Vilayum Ulagu" (Wisdom Maketh the World). "Holistic development of the students" is the primary objective of the esteemed Periyar University.

The University covers the area comprising the districts of Salem, Namakkal, Dharmapuri and Krishnagiri. The University got the 12(B) and 2(f) status from the University Grants Commission, New Delhi and has been Re-accredited by NAAC with 'A⁺⁺' grade in 2021 and placed 59th rank among Indian Universities by MHRD NIRF 2023 and NIRF Band Innovation of 11-50. The University also achieved 10th rank in the ARIIA Ranking among the Government Universities in India.

The University is located on the National Highways NH-7 towards Bangalore at about 10 kms from New Bus Stand, Salem. It is well connected by frequent city bus services linking Salem and other places like Omalur, Dharmapuri and Krishnagiri.

Periyar University imparts higher education through three modes, i.e., through its Departments of Study and Research, Periyar University Centre for Distance and Online Education (PUCDOE) and the affiliated colleges. The University has 27 departments of study offering Post Graduate and Research Programmes and 118 Colleges and 1 PG Extension Centre in Dharmapuri namely Periyar University Centre for Post Graduate and Research studies.

The Choice Based Credit System (CBCS) has been introduced for the various courses offered by the University from 2008-2009 onwards. Periyar University is offering four Certificate Courses from 2009-2010 onwards. The Certificate Courses are designed in order to cater to the current needs of the public. The Student Support Services of Periyar University are available through Library System, National Service Scheme, Youth Red Cross Society, Women's Welfare Centre and Avenues for Sports and Games.

Thanthai Periyar had been advocating throughout his life the importance of being rational and created positive change by his self respect movement. He incessantly toiled for social justice among people, liberating the down trodden women and insisted on the priority of one's mother tongue. To inculcate these ideas the Periyar Chair was created in 1998.

Periyar Institute of Administrative Studies (PERIAS) started functioning from March 2009 and train the students for preliminary and main examinations for the Civil Services, the Institute also plans to conduct various coaching classes for examinations conducted by different organisations like Tamil Nadu Public Service Commission (TNPSC) and Staff Selection Commission (SSC) UGC, IAS & IPS in the near future.

To make a significant mark during the centenary celebrations of Perarignar Anna, a chair has been established after his name as "Anna Chair" in May 2009. It crystallizes the greatest thought provoking ideas of Anna for the development of children, youth and women in the country. It proposes to focus on the social issues and upliftment of the poor.

Centre for Nano Science and Technology has been established in the Department of Physics. The Government of Tamil Nadu sanctioned Rs.1 Crore for the academic and research activities of the centre. Department of Geology proposes to establish a Centre for Geoinformatics and Planetary Studies in the current academic year.

Periyar University Centre for Distance and Online Education (PUCDOE) is imbibing knowledge into the veins of the students who could not take up the regular academic studies in affiliated colleges. PUCDOE has 28th Learner Support Centres within its Jurisdiction.

The established Departments, Centres, Institutes and Chair are contributing their best through academic, research and extension activities. The University is playing a paramount role in bringing multi-faceted development for the country. The University is consistently organizing various academic activities to bring researchers, scholars and activists under one umbrella to discuss, deliberate and carve out time-demanding solutions to social problems. The University stands with its unique "**Village Adoption**" activity.

The University has tie-ups with various academic, research institutes and universities across the world bring laurels to the academia. The University proudly celebrates days that have international significance like National Human Rights Day, Science Day, Women's Day, Environmental Day, World Mother Tongue Day. National Education Day and National Integration day.

b) Breaking the Silence: A Case Study on Menstrual Hygiene Practices among Rural Women in Salem District, Tamil Nadu

Place: Salem District

No. of Participants: 64

Abstract:

This case study delves into the intricate realities of menstrual hygiene practices among rural women in Salem District, Tamil Nadu. Through interviews conducted with 54 rural women, three distinct cases emerged, shedding light on the challenges and misconceptions surrounding menstrual health in this community. The narratives of Miss Chitra, Mrs. Kaveriyammal, and Mrs. Sutha Priya underscore the urgent need for comprehensive menstrual hygiene education and access to appropriate resources. By sharing these stories, we aim to advocate for sustainable interventions that empower women and improve their overall health and well-being.

Case Study 1: Miss Chitra

Miss Chitra's story begins with her daily struggles as a 40-year-old unmarried woman working in the unorganized sector. Despite her meager income of less than Rs. 10,000 per month, Miss Chitra perseveres, albeit with significant challenges. Her menstrual cycle compounds her difficulties, as she experiences excruciating pain and heavy bleeding due to lumps on her uterus. However, instead of seeking medical attention or accessing appropriate menstrual products, Miss Chitra relies on cloth napkins, a makeshift solution that exacerbates her discomfort and puts her health at risk.

The underlying issue lies not only in Miss Chitra's limited financial resources but also in her lack of knowledge about menstrual health. Growing up in a community where discussions about menstruation are taboo, Miss Chitra has never received comprehensive education on the subject.

As a result, she remains unaware of alternative menstrual products or the potential consequences of her untreated condition. Her decision to take unpaid leave from work during her periods reflects not only her physical suffering but also the economic repercussions of inadequate menstrual hygiene practices.

Case Study 2: Mrs. Kaveriyammal

In contrast to Miss Chitra's youthful struggles, Mrs. Kaveriyammal's story unfolds against the backdrop of middle age and motherhood. At 42 years old, Mrs. Kaveriyammal juggles the responsibilities of raising two children while grappling with her own menstrual health challenges. Like many women in her community, Mrs. Kaveriyammal relies on cloth napkins made from used sarees to manage her periods. While she possesses a rudimentary understanding of menstrual hygiene, her knowledge is limited to traditional practices passed down through generations.

Despite her resourcefulness, Mrs. Kaveriyammal's reliance on unhygienic materials poses serious health risks, including infections and reproductive complications. Moreover, her lack of access to accurate information perpetuates the cycle of ignorance surrounding menstrual health in her community. Without proper guidance or affordable alternatives, Mrs. Kaveriyammal and women like her continue to navigate their menstrual cycles with trepidation, unaware of the potential consequences of their choices.

Case Study 3: Mrs. Sutha Priya

Mrs. Sutha Priya's narrative introduces a sobering reality: the devastating impact of untreated menstrual health issues on women's lives. At 28 years old, Mrs. Sutha Priya faces a harrowing decision: whether to undergo a hysterectomy to alleviate her debilitating menstrual pain. Despite using sanitary pads, Mrs. Sutha Priya's condition has deteriorated to the point where she is willing to undergo invasive surgery without fully understanding the implications.

What sets Mrs. Sutha Priya's story apart is not only her physical suffering but also the psychological toll it takes on her. Despite having a supportive family, including a loving husband and children, Mrs. Sutha Priya feels overwhelmed by her pain and frustration. Her willingness to sacrifice her reproductive health underscores the urgent need for comprehensive menstrual health education and access to quality healthcare services in rural areas.

The stories of Miss Chitra, Mrs. Kaveriyammal, and Mrs. Sutha Priya offer poignant insights into the multifaceted challenges facing rural women in Salem district, Tamil Nadu.

From financial constraints and cultural taboos to inadequate access to information and healthcare, these women's experiences highlight the urgent need for holistic interventions that address the root causes of menstrual health inequities. By amplifying their voices and advocating for change, we can work towards a future where all women have the knowledge, resources, and support they need to manage their menstrual health with dignity and confidence.

Awareness and Social Changes in Menstrual Hygiene

In light of the compelling narratives of Miss Chitra, Mrs. Kaveriyammal, and Mrs. Sutha Priya, it becomes evident that addressing menstrual hygiene challenges in rural areas requires a multifaceted approach that encompasses awareness, education, and social change initiatives. Here are some strategies to promote menstrual hygiene awareness and foster social changes:

1. **Comprehensive Menstrual Health Education:** Implementing comprehensive menstrual health education programs in schools, community centers, and healthcare facilities is crucial. These programs should cover topics such as menstrual hygiene practices, reproductive anatomy, menstrual cycle management, and the importance of seeking medical care for menstrual health issues. By equipping girls and women with accurate information, we can empower them to make informed decisions about their health.

2. **Destigmatizing Menstruation:** Challenging cultural taboos and stigma surrounding menstruation is essential for creating an environment where open discussions about menstrual health are encouraged. Community-led initiatives, such as workshops, awareness campaigns, and cultural events, can play a pivotal role in breaking down barriers and fostering acceptance and understanding.

3. **Access to Affordable Menstrual Products:** Ensuring access to affordable and hygienic menstrual products, such as sanitary pads, tampons, and menstrual cups, is essential for promoting menstrual hygiene.

Government subsidies, community distribution programs, and partnerships with NGOs can help make these products more accessible to women in rural areas, reducing their reliance on unhygienic alternatives like cloth napkins.

4. **Empowering Women as Agents of Change:** Women's empowerment is central to driving social change in menstrual hygiene practices. Empowering women to become advocates for their own health and well-being through peer education, leadership training, and community engagement initiatives can amplify the impact of menstrual hygiene interventions and foster a culture of collective empowerment.

5. **Integration of Menstrual Health into Healthcare Services:** Integrating menstrual health into existing healthcare services, including primary care clinics, maternal health programs, and reproductive health services, is crucial. Healthcare providers should receive training on menstrual health management and be equipped to address menstrual health issues with sensitivity and compassion.

6. **Policy Advocacy and Implementation:** Advocating for policy changes at the local, national, and international levels is essential for advancing menstrual hygiene rights and ensuring that women and girls have access to the resources and support they need. This includes advocating for policies that mandate menstrual health education in schools, provide subsidies for menstrual products, and eliminate taxes on menstrual products as essential items.

7. **Community Engagement and Participation:** Engaging local communities in the design, implementation, and evaluation of menstrual hygiene programs is essential for ensuring their relevance and sustainability. Community members, including women, men, elders, and religious leaders, should be involved in decision-making processes and encouraged to contribute their perspectives and expertise. By fostering a sense of ownership and collective responsibility, community engagement initiatives can help drive meaningful social changes and empower women to take charge of their menstrual health.

8. **Media and Communication Campaigns:** Leveraging mass media, including television, radio, print, and digital platforms, to disseminate accurate information and challenge menstrual taboos can reach a wide audience and catalyze social change. Media campaigns, public service announcements, and social media initiatives can raise awareness about menstrual hygiene, normalize discussions about menstruation, and promote positive attitudes towards menstruating individuals. Collaborating with celebrities, influencers, and local leaders can amplify the impact of these campaigns and inspire behavior change.

9. **Menstrual Hygiene Management Facilities:** Investing in infrastructure and facilities for menstrual hygiene management, such as clean and private toilets, hand washing stations, and waste disposal systems, is critical for promoting hygienic practices and protecting women's dignity. These facilities should be accessible in schools, workplaces, public spaces, and healthcare facilities, ensuring that women and girls can manage their menstrual hygiene safely and comfortably. Public-private partnerships and community-driven initiatives can mobilize resources and expertise to improve menstrual hygiene infrastructure in rural areas.

10. **Cultural Sensitivity and Tailored Interventions:** Recognizing the diverse cultural norms, beliefs, and practices surrounding menstruation is essential for designing effective interventions that resonate with local communities. Tailoring menstrual hygiene programs to address specific cultural contexts, linguistic preferences, and socioeconomic realities can enhance their acceptability and effectiveness. Engaging cultural and religious leaders as advocates and allies can help bridge cultural divides and promote positive social norms around menstruation.

11. **Research and Evidence-Based Advocacy:** Generating robust evidence through research and data collection is essential for informing advocacy efforts, shaping policy decisions, and evaluating the impact of menstrual hygiene interventions. Conducting formative research, baseline assessments, and impact evaluations can identify gaps in knowledge and service delivery, measure progress towards menstrual hygiene goals, and advocate for resource allocation and policy changes. Collaborating with academic institutions, research organizations, and government agencies can strengthen the evidence base for menstrual hygiene advocacy and programming.

12. **Intersectional Approaches to Menstrual Health:** Recognizing the intersecting factors that influence menstrual health, including gender, age, socioeconomic status, disability, and geographic location, is critical for promoting equity and inclusion in menstrual hygiene initiatives. Intersectional approaches to menstrual health prioritize the needs and experiences of marginalized and vulnerable populations, such as indigenous women, women with disabilities, and refugees, who may face additional barriers to accessing menstrual hygiene resources and services. By addressing these intersecting inequalities, we can ensure that no woman or girl is left behind in the journey towards menstrual health and rights.

Conclusion:

By prioritizing awareness, education, and social changes in menstrual hygiene practices, we can work towards a future where all women and girls have the knowledge, resources, and support they need to

manage their menstrual health with dignity and confidence. Together, we can break the silence surrounding menstruation and create a world where menstrual hygiene is no longer a barrier to women's health and well-being.

3.3 Field Action/ Outreach:-

a) Programme on Awareness to Eradicate Social Stigma in Rural Women

Place: Sangeethapatty

No. of Participants: 52

Women's Studies Centre of Periyar University organized one day awareness camp in commemoration of International Day for Rural Women on 16.10.2023 at Sangeethapatty village. Dr. A. Radhika Deputy Director of Women's studies centre, Periyar University welcomed the gathering.

Awareness Lectures:

Resource person Name: Dr.D.N.Nithyanandan

Assistant professor

Department of Psychology

Periyar University, Salem

Topic: Empowering rural women in deal with emotional issues

Dr.D.N.Nithyanandan expressed his words by empowering rural women to address emotional issues in vital ways; they often face isolation, limited mental health resources, and traditional gender roles. Supporting them with social connections, improved mental health services, and opportunities for independence can make a significant difference in their emotional well-being and the well-being of rural communities. He insisted rural women take laughter therapy to reduce stress.

Resource person Name: Dr.S.Thilagavathi

Syndicate Member,

Assistant professor,

Department of Food Science and Nutrition,

Periyar University, Salem

Topic: Influence of Urbanization culture in dietary habits of rural folk

Dr.S.Thilagavathi explained that the influence of urbanization culture on the dietary habits of rural folk is profound. With the increasing availability of processed and fast foods, rural communities are gradually shifting away from their traditional, locally sourced diet. This shift has led to health challenges and the potential loss of culinary heritage, highlighting the need to preserve cultural traditions and promote healthier dietary choices in rural areas. She also insisted on the mechanism of the biological clock and the food habits of regular practices.

End of the Programme Prof.Dr.P.Nazni, Director of Women's studies centre extended her thanks to the participants and resource persons.

The program aimed to address and celebrate diversity, equity, and inclusion in various aspects of life.

Prof. Dr. P. Nazni, Director of the Women's Studies Centre, Periyar University, Salem, extended a warm welcome to all attendees, emphasizing the significance of celebrating women's achievements and fostering inclusivity in society.

Prof. Dr. S. Kadhiraivan, Controller of Examination at Periyar University, Salem, delivered an inspiring presidential address during the International Women's Day celebration. He highlights the importance of inclusivity and gender equality in his speech, urging attendees to embrace diversity and empower women from all walks of life.

Prof. Dr. K. Jayaraman, Dean of the College Development Council at Periyar University, Salem, delivered a heartfelt felicitation address during the International Women's Day celebration. He emphasized the necessity of implementing inclusive policies to ensure equal opportunities for women across all domains.

The highlight of the event was the special address delivered by Dr. Uma Rajarathnam, Global Head of Energy Transition Advisory at Enzen Global Solution Pvt Ltd, Bangalore, Karnataka, India. Dr. Uma Rajarathnam shared valuable insights into the significance of women's contribution to the energy sector and how diversity can fuel innovation and progress. Her inspiring words resonated with the audience, encouraging them to break barriers and pursue their passions without limitations.

The event concluded with a Vote of Thanks delivered by Dr. A. Radhika, Deputy Director of the Women's Studies Centre, Periyar University, Salem. She also extended her appreciation to all the participants and dignitaries for their valuable contributions, making the event a grand success.

The International Women's Day celebration at Periyar University not only brought together intellectuals, professionals, and students but also ignited conversations about the importance of gender equality and inclusivity in all spheres of life.

The Women's Studies Centre at Periyar University continues to play a pivotal role in fostering awareness and understanding on such critical issues, contributing to the empowerment and upliftment of women in society.

b) Administrative Training Programme on "Uplifting Health and Stress Management"

Place: Senate Hall, Periyar University, Salem

No. of Participants: 27

The Administrative Training Programme on "Uplifting Health and Stress Management" successfully concluded at Periyar University, Salem, with the presence of numerous esteemed dignitaries and experts. The program, organized by the Women's Studies Centre in collaboration with Internal Quality Assurance Cell, Periyar University, aimed to equip administrative staff with strategies for fostering a healthier lifestyle and managing stress effectively.

DEPARTMENT OF GEOLOGY

About the Department

- Periyar University is rightly located in the mineral enriched southern granulite terrain. Salem is known as the Geologist's Paradise, Museum of Geology and Singhbhum of Tamil Nadu.
- The Department of Geology was established as a P.G. extension centre of University of Madras at Salem in 1984. The P.G. extension centre has been upgraded as Periyar University in the year 1997. It is one of the pioneer Department in Periyar University. M.Sc., Applied Geology, M.Phil., Geology and Ph.D., Geology programmes were started in the year 2005.
- The Department is supported by UGC NON-SAP & DST-FIST programme. The Department carried out research in Hydrogeology, Petrology, Geoinformatics Modeling, Remote Sensing and GIS, Applied Geomorphology, Micropaleontology, Stratigraphy and Environmental Geology, Mineralogy, Sedimentology, Geochemistry, Coastal Studies, Mining Geology, Mineral Exploration and Application of Geospatial Techniques.

DEPARTMENT OF MATHEMATICS

1. About the Department

The erstwhile PG centre of Madras University has become the Department of Mathematics of Periyar University in 1997. The department offers programmes of study and research leading to M.Sc. and Ph.D. degrees and is on a relentless march towards academic excellence. Based on the contributions towards research, the University Grants Commission (UGC) has granted funds under the Special Assistance Programme (SAP), the Department of Science and Technology (DST) has granted funds for the Improvement of S&T infrastructure (FIST), and NBHM-DAE has been supporting the library grant to this department.

Vision and Mission of the Department

The objective of the Department is to build a strong research group in and around University area in the field of Algebra, Analysis, Graph Theory, Differential equations and Numerical Analysis which have been identified as the thrust areas by the scientific bodies like DST, NBHM, DAE etc. and to place the department in the limelight of other research groups in India.

With these objectives in mind we plan to raise our Department to the level of “Center of Excellence in Mathematics”.

DEPARTMENTS OF COMMERCE

- The Department of Commerce was established in 1997 by the Act of Periyar University. The Department offers M.Com., and Ph.D. Programmes. The Programme M.Com provides an intense and meticulous base for students to equip themselves in teaching, research, employment and administration. The programme focuses and serves the needs of academics, industries, innovation and ensures the compliance for employability in Accounting and Taxation, Marketing and Marketing Research, Human Resource Management, Insurance and Banking, Finance and Investment Management, Academic and Business consultants and Analysts etc in all over the country and abroad. So far the Department faculty members have guided more that 100 Ph.D.'s and 275 M.Phil's. The Department creates an ample opportunity for the research scholars to pursue Ph.D Degree with fellowships like URF, JRF, RGNE, ICSSR, UGC, TNSCF etc, and the Department is also offering coaching classes for NET/SET Examinations. Several Major and Minor Research Projects have been successfully completed and undergoing in the Department with the financial support of funding agencies like UGC, ICSSR and UGC-UKERL. The course structured for two academic years which is divided into four semesters, each semester contains five to six courses which include the Core, Elective, Non-major supportive, Skill based and Add on courses / MOOC / Swayam. The M.Com. Post Graduate Degree program encompasses advancements in the fields of finance, marketing, management, accounting, law, taxation, entrepreneurship, organisational behaviour, computer applications, research, etc., to equip students with in depth knowledge and skills required to cope with the dynamics of the constantly changing business environment and technological up gradations. This program provides the framework to enhance the learner's acumen, logical and analytical thinking through mandatory internships and research projects which facilitates industry exposure, ensuring job readiness and confidence to become job providers.

DEPARTMENT OF PHYSICS

1. About the Department : Department of Physics

Department of Physics was established in the year of 2004 with a vision to provide world class research facility among the students and research scholars of this university area. The main objective of the department is to provide high quality teaching and research. The department holds various projects in the field of crystal growth, high energy materials, nanotechnology and material science, funded by UGC, DST, CSIR, DAE, DRDO, BRNS etc.. In addition, the department is also covered under DST-FIST programme for the strengthening infrastructure of laboratories. Further, the Government of Tamil Nadu provided high tech laboratory facility to the department of physics.

DEPARTMENT OF FOOD SCIENCE AND NUTRITION

1. About the Department :

Department of Food Science and Nutrition was instituted in the year 2005, to tap the unexplored potential and its application to the society in the discipline of Food Science and Nutrition with the objectives of Inculcation of knowledge, productive learning, life and entrepreneurship skills and employability among the youth related to Food Science, Technology and Nutrition. The Department fosters teaching, research and extension activities in the major thrust area like Food Chemistry, Post Harvesting Technology, Food Product Development, Nutraceutical and Functional Foods, Clinical and Public Health Nutrition. Department of Food Science and Nutrition was received funds (Rs.85 Lakhs) from UGC in order to start the B.Voc. Programme in Food Science and Nutrition in the year 2015.

Faculties of the Department are actively involved in research by availing funding support from various funding agencies such as UGC, DST, DRDO, RSSDI, ICMR etc. Students are encouraged to be the beneficiaries of DST Inspire Fellowship, UGC-NET Junior Research Fellowship, University Research Fellowship and Project Fellow in various funded projects, National and State Scholarships. The department has created infrastructure facilities for advanced research for M.Sc., M.Phil., and Ph.D., Scholars with the funding assistance from UGC , MOFPI (Rs.75 Lakhs) and DST-FIST-Level I (Rs.84 Lakhs).

DEPARTMENT OF COMPUTER SCIENCE

1. About the Department

The Department of Computer Science was established in the year 2002, with the objective of imparting high quality education in the domain of Computer Science and Applications. The Department received Rs.81.50 Lakhs under Special Assistance Programme SAP (DRS – II) from UGC in the year 2018. With rapidly evolving technology and the continuous need from innovation, the Department has always produced quality professionals, holding important positions, in Information Technology industries in India and abroad.

The Department offers the academic programmes leading to the award of MCA, M. Sc CS, M. Sc DS, M. Phil, Ph. D and B. Voc (AR and VR). The mission of the is to impart high quality post graduate education and carry out leading edge research in various research areas such as Image Processing, Pattern Recognition, Data Mining, Mobile Computing and Bioinformatics.

DEPARTMENT OF BIOCHEMISTRY

1. About the Department

The Department of Biochemistry was established in the year 2005 and has been offering M.Sc., M. Phil., and Ph.D degrees in Biochemistry . The department comprises of two professors, one Associate Professor, one Assistant professor and two guest faculties. The main objective of the department is to inculcate the basic concepts and applications of Biochemistry and thrive in the field of research and development. The department is known for its commitment to the development of the students into well-rounded individuals who can take on leadership role in Industry, Academic or Government. The Department is inbuilt and established with numerous research facilities such as high speed Ultra centrifuges, Spectrophotometers, Semi Autoanalyser, colorimeter, Deep freezers, Cold room, Sonicator, Gel documentation system, orbital shakers, RT-PCR and PCR machines, CO₂ incubators, ELISA Reader, centrifuges, incubators, laminar flow, electronic balance etc.

DEPARTMENT OF SOCIOLOGY

1. About the Department

The Department of Sociology has been established in October, 2008 at Periyar University to carve out social equilibrium through its three dimensional phenomena as

- Academic
- Research
- Extension activities

The Department has adopted a village for the multi-faceted growth. The Post Graduate students of the Department visit the village all the alternative Fridays to the village Sangeethapatti to know the issues, problems, developments, challenges etc., through the methodologies viz., narratives, interview, and case study. The field visits help them to prepare the periodical reports par with the international reports like through the adopted village, the Department identifies the young child scientists and bring them to the Department celebrates the National Science Day on twenty eighth February every year since 2010 consistently.

VISION

The Department throws its light on societal issues and strives to bring time demanding solutions. It prepares the students and scholars to take up any kinds of academic, research activities and in bureaucracy.

MISSION

- To identify the researchable areas for the students of Sociology to pursue both quantitative and qualitative research.
 - To help the society in all possible ways by deliberating the different issues which have social ramifications.
 - To bring the social harmony and peace in the different settings - Rural, Urban, Tribes and Industries

DEPARTMENT OF ENVIRONMENTAL SCIENCE

1. About the Department

The Department of Environmental Science was created in 2011 with the aim of providing innovative knowledge and awareness at the forefront of interdisciplinary sciences focusing on environmental care and renewable energy. The department is established with well-equipped smart classes, laboratory and library, and offers new interdisciplinary curricula for the postgraduate students. The curricula cover the subjects with the current thrust areas of various environmental and renewable-energy sciences. The full spectrum of education and research provided by the Department of Environmental Science is characterized by a passionate commitment to rigorous scholarship and interdisciplinary effort. The Department is striving for industry partnership and collaboration with Foreign Universities, which enable post graduates and research scholars to have direct exposure to industrial careers through internships, scholarships and fellowships.

DEPARTMENT OF LIBRARY AND INFORMATION SCIENCE

1. About the Department

The Department of Library and Information Science was established in 2011. The Department has full-fledged, dedicated and committed team of faculties with rich research experience. The Syllabus coverage in the Department is on par with the international standards. The multimedia technology is used in regular classes. The programmes offered by the Department are M.Lib.I.Sc two year CBCS programme and PhD Full time & Part time Research programme. All the passed out students got well placed in leading Academic institution and research institutions with decent pay and perks.

DEPARTMENT OF ZOOLOGY

1. About the Department

The Department of Zoology was established in the year 2012. This Department strives to create a suitable an environment that enables teaching and research to attain high levels of excellence (through Publications and Patents) and in which its members can achieve their full potential right from Molecular Cell Physiology to understanding and targeting diseases like cancer and vector borne diseases, impact of climate change on insect diversity and bat behavior, Cultivation to commercialization of earthworms etc. In addition to the routine work, the Faculties actively engaging in research and also have collaboration with other Universities/ Research Institutions at national as well as International level. So far the Department of Zoology received more than a Crore of Rupees as research grant from various funding agencies like DST, UGC etc.

DEPARTMENT OF TEXTILES AND APPAREL DESIGN

1. About the Department

Established in the year 2014, the department of textiles and apparel design aims at equipping students with knowledge and skills that would make them job ready and self-reliant. The curriculum also focuses on opportunities and entrepreneurship. The department offers B.Voc, M.Sc., MPhil and Ph.D programmes. To implement effectively the curriculum and research activities, the department is equipped with the best laboratories for draping, sewing and construction, Computer application in design and Textile testing. It has a Conducive research environment, skillsets and competence to undertake consultancy projects from the industry. Research at the department also addresses issues relating to textile industry located in the region

DEPARTMENT OF ENERGY SCIENCE & TECHNOLOGY

1. About the Department :

The Department of Energy studies was established in the year 2015 (later renamed as Energy Science in 2019) with major intention of promoting quality education in the arena of renewable energy. The rapid depletion of conventional energy sources due to worldwide increase in fossil fuel-based road transport, industrial activity, and power generation demands a predominant need for the alternate and renewable energy. In the quest to reach this ultimatum, a postgraduate in energy science and research Programme is offered by the Department of Energy Science.

In the year 2019, with a mission to provide manpower with knowledge and skill for the growth of India's energy sector with innovative energy technologies, the department has started to a new course M.Tech Energy Technology with the approval of AICTE New Delhi effective from 2020-21 academic years onwards.

The University has employed highly experienced and professionally qualified young and dynamic faculty members with background from industries and education in the field of renewable energy. The faculties of Energy Science are actively involving themselves in research and extension activities, paper and book publications. Attending and presenting papers at national and international level seminars and conferences.

The students are encouraged to make maximum use of library and computer lab which are available to them round the clock. The learning environment is always continuous and inculcates in the students. The Department strongly emphasis on quality education, effective teaching pedagogies and real industry interface to propel to a better career of the students.

DEPARTMENT OF STATISTICS

1. About the Department

The Department of Statistics has been recently started from the academic year 2016 – 17. At present the Department is a full-fledged research department and offer M.Sc., M.Phil. and Ph.D. Programmes in Statistics and Biostatistics. The objective of the Department is to build a strong research group in and around University area in the field Design and Analysis of Experiments, Statistical Quality Control, Stochastic Processes and Biostatistics. With these objectives in mind we plan to raise our Department to the level of “Center of Excellence in Statistics”.

CENTRE FOR INSTRUMENTATION AND MAINTENANCE FACILITY (CIMF)

CIMF and its Objective

Centre for Instrumentation and Maintenance Facility (CIMF) is the unique facility, which was created under UGC's XIth plan merged scheme. The main objective of the centre is to provide better service for the electronic and electrical equipments, and to design new electronic devices to meet out the university's research and teaching requirements. CIMF is well equipped with sophisticated electronic equipments. Periodically, CIMF conducts workshops and training programmes on various instruments being used for scientific research.

New Equipments Facilities created

This academic year CIMF purchased and installed a Single crystal X-ray diffractometer (SCXRD) and the Life Science Departments also purchased Scanning Electron Microscope (SEM) and Gas Chromatography Mass Spectrophotometry (GCMS) from RUSA grant. All these equipments will be placed in CIMF under one platform, so that all the faculties and students can utilize these sophisticated facilities for their research.

1. Single Crystal X-ray diffraction facility

CIMF created Single Crystal X-ray Diffraction intensity measurement facility. This facility is mainly intended for materials, biomolecular and chemical research and others can also utilize this facility if it is necessary. This instrument allows to determine the crystal and molecular structure of crystalline materials.

CRYSTAL SELECTION

SINGLE CRYSTAL X-RAY DIFFRACTOMETER

2. Scanning Electron Microscope with EDX Facility

Scanning electron microscopy with energy dispersive X-ray spectroscopy (SEM/EDX) is the best-known high-resolution images of surface topography, with excellent depth of field.

SEM with EDX

3. Gas Chromatography Mass Spectrophotometer Facility

GC-MS can be used to study liquid, gaseous or solid samples. GC is used to separate the chemical components of a sample mixture and then detect them to determine their presence or absence and/or how much is present.

G CMS

4. ATOMIC ABSORPTION SPECTROSCOPY Facility

Atomic absorption spectrometry (AAS) is an easy, high-throughput, and inexpensive technology used primarily to analyze elements in solution.

Equipment service and Revenue

From the very inception of this centre, CIMF serviced several electronic and electrical equipments, computers and other non-electronic equipments which are being used for research and teaching. These in-house facilities are immensely helpful for our students as well as researchers and the non-teaching staff members. CIMF charges a very minimal amount for service/component replacement. The amount receiving towards the equipment service is duly deposited to Registrar's CIMF account without any delay. This revenue is very helpful for CIMF's future development.

Workshop and Training Programs

CIMF is organizing workshops and training programmes to benefit our faculties and students of our university and affiliated colleges. During the last academic year (2023-2024), CIMF organized the following programmes.

Workshops conducted (2023-24) : 4
Workshop – 1

Title : Advance Analytical Techniques

Date : 25th September, 2023

The Centre for Instrumentation and Maintenance Facility (CIMF) of the Periyar University has organized a one-day Workshop on Advance Analytical Techniques, jointly with PerkinElmer, India. The workshop focused on the latest developments in various analytical techniques, including pollutant analysis from food and environment, characterization of materials, and heavy metal analysis. The Director of CIMF, Prof. K. Murugesan, welcomed the workshop gathering and explained the available facilities and services provided to the research community. He stated that various chemical contaminants and their exposure to the environment, animals, plants, and food materials. Many of the chemicals are persistent and eventually accumulate in the human body, and they are toxic even at very trace levels. High-sensitive analytical equipment is necessary to detect and quantify the trace level chemical contaminants from environmental matrices, food, and biological samples. Currently, the Centre has Single Crystal XRD, GC-MS, SEM-EDX, and AAS supported by RUSA. He stated that the University Authorities strongly supported the establishment of the Centre facilities. CIMF provides its facilities to the researchers of the Periyar University and other institutions and industries. The Centre has planned to provide an internship programme on various analytical techniques for students and scholars to generate skilled human resources to meet industrial requirements. A team of Analytical Equipment specialists from PerkinElmer, India, has participated as resource persons and discussed cutting-edge analytical technologies on chromatography and spectrophotometry applied in life, environment, food, and materials sciences research. Faculty members, researchers, and students from the School of Biological Sciences, Environmental Sciences, Food Science, and Physics participated in the workshop programme and discussed with the experts. The Centre Coordinator, Dr. P. Maadeswaran, proposed the vote of thanks. The Centre staff demonstrated various analytical equipment and protocols for preparation materials for analysis.

workshop focused on the latest developments in various analytical techniques, including X-ray Crystallography – Principles, Crystals and Symmetry, X-ray diffraction intensity measurements, Data reduction, Space group determination, Phase determination and structure solution. The Director of CIMF, Prof. K. Murugesan, welcomed the workshop gathering and explained the available facilities and services provided to the research community. Currently, the Centre has Single Crystal XRD, GC-MS, SEM-EDX, and AAS supported by RUSA. He stated that the University Authorities strongly supported the establishment of the Centre facilities. CIMF provides its facilities to the researchers of the Periyar University and other institutions and industries. SWAYAM CELL

Activities

The Swayam Cell of Periyar University coordinates the enrolment of students to Swayam courses in every academic year. In the academic year 2023-2024, One Swayam Course Completion during the II Semester was made mandatory to all the PG Students of Periyar University. Under this context, the swayam courses open for enrolment during the January Session and July Session during the Academic Year 2023-2024 was circulated to all the students through the Swayam Mentor faculty of the respective Departments. The data regarding Student Enrolment, Course Examination and certification were collected and maintained by the Swayam cell.

Further, during the academic year 2023-2024, the credits earned by the students through Swayam Courses were transferred to their Mark Statement. In total 819 students got enrolled in 39 different swayam courses. Out of the enrolled students, 760 students appeared for exams and 634 students passed the exam and got the swayam certificates. Out of this the credits earned by 372 students have been transferred to their respective mark statements. The students who were unable to clear the swayam exam were assessed through equivalent elective courses offered by the respective departments and the same has been informed to the Controller of Examination.

Besides, the faculty members were encouraged to prepare e –content modules and swayam courses in their respective discipline. Under this preview, workshops and sensitization programs were organized for the faculty members and necessary facilities were arranged for the development of e content modules and courses

PERIYAR UNIVERSITY CENTRE FOR POSTGRADUATE AND RESEARCH STUDIES,
DHARMAPURI

1. About the PG and Research Centre, Dharmapuri

Post Graduate Extension Centre of this University started functioning from the academic year 2012-2013 with the approval of the Government of Tamilnadu (G.O No. 76; Dated 25-05-2012) and is located at Boomandahalli, Mallikuttai Post, Dharmapuri- 635 205. It was established with three departments initially and five more departments were added successively during 2015 and 2016. In consonance with its mission statement “Arival Vilaiyum Ulagu” it is committed to promote an intellectual climate through artistic creation, critical mediation and innovative ideation. The Post Graduate Extension Centre inculcates in bridging a gap of holistic integrated education to the young minds. The only motive of the Government of Tamil Nadu and Periyar University to start a PG Extension Centre in Dharmapuri is to reach the unreached in every corner and in outskirts of Dharmapuri and Krishnagiri Districts. It plays a pivotal role in providing the completeness of wisdom and knowledge, by educating and enriching the students from rural areas. It always excels with the sense of rendering standard education for a fulfilled development of this area. The Centre comprises eight Departments presently. The PG Extension Centre was renamed as “Centre for Postgraduate and Research Studies, Dharmapuri” in May 2022 to attain the national importance.
