## **Best Practice 1: Get Set Go Green**

## **Green Campus Initiatives**

Prof.C.Swaminathan, Vice Chancellor planting sapling on 05.09.2015

Prof.P. Kolandaivel, Vice Chancellor planting saplings in Miyawaki garden.

Students participating in planting saplings in Miyawaki garden as a part of social forestry programme in the University

Miyawaki garden after 10 months. Area of 232.25 sq.m with 1400 plants of 55 varieties

# **Sewage Treatment Plant**

Sewage Treatment Plant with a capacity of treating 120 KLD at Periyar University. Recycled water of about 80000 litres is used for irrigating the landscape.

## **PET Bottle Shredder**

Pet bottle shredder (Nos:2) is installed in Amenity Centre building and New Science Block-I catering to efficient disposal of plastic wastes ensuring a plastic free campus

## **Sterilization of Biowastes**

Microbial biowastes are sterilised and disposed as a part of maintaining a clean environment

# **Biogas Plant**

Biogas Plant installed at University Campus utilizing the food wastes of hostels for generating biogas

(Dimensions: 2.10 x 2.10 x 2 m (L x W x H) with a gas holder of domestic burner)

# **Energy Conservation**

Solar cells installed on roof of Science Block 2 with a capacity of 300 KWs

LED bulbs installed in Indoor stadium ensuring electricity conservation

## **Rain Water Harvesting Pit**

# MOU with Association of Agricultural Technology in South East Asia, Thailand

76AB 156304

V. சீதாராமன் மா.ந.நீதிமன்ற முத்திரைதான் விற்பனையாளர், துறையூர். L.C.No. 15203/83

Memorandum of academic cooperation between

Association of Agricultural Technology in Southeast Asia (AATSEA), Thailand and Periyar University, Salem, India

This memorandum of academic cooperation (hereinafter referred to as "Memorandum") is made and entered into and executed on.

With the objective of strengthening their mutual cooperation, Association of Agricultural Technology in Southeast Asia (AATSEA), Thailand and Periyar University, Salem (hereinafter referred to respectively as a party and collectively as parties to this Memorandum) have concluded the following:

- The collaboration between the parties shall be undertaken with the objective of promoting academic and cultural ties between the parties. Such collaboration shall include educational and research activities in the disciplines of natural sciences and related areas.
- 2. The parties agree that, subject to the terms that are to be further considered and agreed upon in writing according to clause 3 herein, their collaboration will include but not be limited to the following areas:
  - Mutual exchange of students
  - ii. Mutual exchange of academic staff and/or researchers

- iii. Collaborative research and collaborative publication of research outcomes by academic staff and researchers; or
- iv. Collaborative academic programs at postgraduate levels.
- v. The award of dual post- graduate degrees.
- The term of the specific areas of collaboration stated hereinabove in clause 2 shall be further considered and agreed upon in writing by the parties prior to the initiation of any particular activity.
- 4. The parties agree that this Memorandum shall not be a legally binding agreement giving raise to any legal relationship, rights, duties or consequences, but is only a definite expression and record of the purpose of the parties are bound in honor only.
- 5. This memorandum may be amended by the mutual agreement of both parties.
- 6. This memorandum shall remain in effect for a period of three (3) years from the mutual written agreement of both parties. The memorandum can be terminated at any time by either partyupon provision of six (6) months written notice to the other party.
- 7. This memorandum shall be in the English and French languages.

- 7. Abstract

An improved microwave reactor 100 for the large scale in situ synthesis of medical grade hydroxyapatite (HAp) nanoparticle from eggshell biowaste by microwave heating is disclosed. The apparatus comprises a cavity 102, a reactor tube 104, a plurality of magnetrons 106, a control unit 112, an atomizer 116, a byproduct collector 110, an exhaust 115 for discharging the chemical wastes during the process and a sample collector 108. Before the microwave heating, CaCO3 is extracted from the eggshell and converted into CaO via heating at 900 oC for 1 h in air atmosphere. The CaO is then dissolved in EDTA solution that acts as chelating agent is further mixed with phosphate reagent in such a way to get the Ca/P ratio as 1.67. The obtained reaction mixture is then processed in the microwave reactor 100 by charging it through the atomizer 116 in to the chamber into the reactor tube 104 to obtain the required HAp Nano particles in large scale. #### From

Dr. T. Poongodi Vijayakumar Professor and Head Department of Food Science and Nutrition Periyar University Salem – 636 011

To

The Managing Director SAGO SERVE Salem

#### Sir/Madam,

Sub: Periyar University, Salem - Department of Food Science and Nutrition - Detecting maize adulteration - Technology Identification Research - Reg.

 Sago Serve letter to the Vice Chancellor Rc.No.0855/Lab/2014, dated 04.04.2017.

 Letter from Rasipuram Taluk Sago and Starch Manufacturers Welfare Association dated 27.03.2017.

\*\*\*\*\*

With reference to your letter, I am by direction to inform you that Department of Food Science and Nutrition, Periyar University, Salem is willing to carry out a collaborative research on "Detection of corn starch adulterant in tapioca starch based sago pearl using chemometric method." The Department may proceed initially for the detection of corn starch adulterant in pure tapioca starch from 23.06.2017 onwards at SAGO SERVE. This collaborative research is further empanelled through MoU signed by SAGO SERVE with Department of Food Science and Nutrition on 25.06.2015.

To carry out the research very effectively, the Department of Food Science and Nutrition is in need of the following support from SAGO SERVE. The research is designed in three phases.

Phase I - Detection of corn starch adulterant in tapioca starch used for sago pearl production Phase II - Detection of corn starch adulterant in sizing starch used for sago pearl production.

Phase III - Detection of corn starch adulterant in tapioca sago pearl (little tough to detect since both the starches get gelatinized).

In each phase, the FTIR spectra of 200-250 numbers have to be taken and analysed further through chemometric software.

Hence the Department of Food Science and Nutrition is in need of funding and technical support for the following means from SAGO SERVE.

S.No.	Particulars	Technical Support	Proposed budget in Rs.	
1.	Chemicals	KBR - 500g		
2.	Equipments	a) FTIR spectroscopy and its accessories     b) Hot air oven     c) Dissector     d) Microscope with camera to capture image	Available in Sago Serve	
3.	Softwares and Books	Multivariate Data Analysis Software     Multivariate Data Analysis – In     Practice – Book	5,00,000.00 20,000.00	
4.	Manpower	Food Analyst – I  @ Rs. 10,000/- per month per person  Helper – 1  @ Rs. 100/- per Duration 2 months	24,400.00	
5.	Miscellaneous	Contingency, stationary and travel expenses	10,000.00	
6.	Total		5,54,400.00	

The duration of research is 2 months (23.06.2017 to 22.08.2017).

Kindly approve the same and permit the Department of Food Science and Nutrition, Periyar University, Salem to carry out the research.

The Department of Food Science and Nutrition is very much thankful to SAGO SERVE for collaborative research.

Thanking You

Yours Faithfully

2. MoU copy

Salem and its adjoining districts are main sago manufacturing areas. Several complaints regarding adultration in Sago with maize starch were received by food safety authority of India (FSSAI). Department of Food Science and Nutrition offered to detect the maize adultration in Sago in a joint venture with Sago Serve , Salem. Based on this venture maize adultration in Sago was reduced.

# Consultancy Work on Monitoring of Food Safety, Hygiene and Sanitary Practices in Food Premises of Periyar University Campus

As per the requisition by the Honourable Vice-Chancellor, The Department of Food Science and Nutrition took the initiative to monitor food safety, hygiene and sanitation practices in food premises (University Canteen) on 08.01.2019 at 1.00pm.

The following members are nominated by the Department to do monitoring and evaluation as per FSSAI guidelines.

#### MEMBERS DETAILS:

## 1. Dr.T.Poongodi Vijayakumar

Professor and Head Department of Food Science and Nutrition Periyar University Salem-1 1

#### 2. Dr.J.Prakash Maran

Associate Professor

Department of Food Science and Nutrition

Periyar University

Salem-11

#### 3. Mrs.S.Priyanka

Faculty (B.Voc Programme)
Department of Food Science and Nutrition
Periyar University
Salem-1

The committee monitored and evaluated the location and layout, equipments and fixtures, storage systems, personal hygiene, water supply, pest control system, conveyance, transportation and handling of food, cleaning and maintenance, audit documentation and records, waste management and training in a prescribed template. The observation on each section is enclosed, for your kind perusal.

#### Recommendations based on Observation

- 1. Repair and maintenance of infrastructure facilities such as
  - a. Replacement of damaged floor parts.
  - Replacement of damaged window closures and glasses.
  - c. Proper fixtures for drainage provisions
  - Separate tank and well marked pipelines provision for potable and hand washing water.
  - e. Establishment of liquid and solid waste management system.
  - f. Installation of dish washer, RO system, chimney and exhaust fans.
  - g. Establishment of storage structures for non perishable, Semi perishable and perishable items.
  - Separate store room for vessels, trolleys, cutleries, plates and other assets needed for food preparation and service area.
  - i. Repair and replacement of wash basin, bathroom and toilet provisions.
- Intense training is suggested for production manager, supervisor and food handlers on
  - a. Safe food handling practices
  - b. Safe handling of environment
  - c. Personnel hygiene
  - d. Sanitary practices as per FSSAI Act.

#### Recommendation for Adoption of Good Hygienic Practices (GHP)

- The committee recommends the University Administration to do such monitoring and evaluation of all hostel kitchens and food premises registered under FSSAI on a regular basis which may enhance the effective adoption of good hygienic practices of food premises inside the university campus.
- The Department of Food Science and Nutrition may be permitted to create awareness on good hygienic practices and intense training to food handlers as a part of the monitoring and evaluation of food safety management system of food premises, on a regular basis.

  1. April 1201119 (F. Peorgedi Vijagahumas)

  2. J. Blads Margan (Dr. J. Remeasurement)

Signature of the Committee Members

Phone: 0427-2345766, 2346268, 2346269, Fax: 0427-2345124 Website: <u>www.periyaruniversity.ac.in</u>

Department of Food Science and Nutrition monitored and evaluated the food quality and the hygiene of University Canteen and submitted its recommendation to the University authorities. Based on this evaluation, and recommendation effective adoption of good hygienic practices of food premises inside the University campus improved.

#### **Establishment of Knowledge Transfer Centre**

7

#### **PERIYAR UNIVERSITY**

SALEM - 636011, TAMIL NADU, INDLA NAAC A Grade - State University - NIRF Rank 90

#### Knowledge Transfer Centre

The Knowledge Transfer Centre is a place where Department faculty members, students and department alumni's work in a collaborative environment to provide knowledge solutions and services to the Society.

The faculty members of the Department should be permitted to engage themselves in Consultancy practice to such extent, which does not interfere with the discharge of their routine duties.

- Centre offers expertise and a host of specialized facilities which can be used by academia and industry and is of mutual benefit.
- Consultancies provide enrichment of the experience and knowledge through interacting in the professional sphere. The Academics also get a chance of experimenting under actual service conditions.
- Consultancy also provides an opportunity to students to see the sphere of their chosen profession.
- It provides financial return (small or large) to Periyar University, the faculty and the students.

#### Policies

- All Consultancy work, whether carried out by an individual or a group of faculty members and irrespective of the quantum of facilities of the Department availed, shall be considered as Knowledge Transfer Centre Consultancy, not of any individual. However, the consultancy works can be categorized as
  - Software consultancy
  - II. Research based consultancy
  - III. Industrial consultancy
  - IV. Collaborative consultancy
  - V. Extension activities
  - VI. Human resource development

- University can nominate the Coordinator to the Centre to coordinate the
  work with the consent of the Head of the department the job shall be
  assigned to an individual/group of members competent to undertake the
  work.
- The Savings account may be created in the name of "The Coordinator Knowledge Transfer Centre" to handle the financial transactions
- The committee has recommended the following procedure for distribution of the consultancy fees among the consultant and the institute.

SI. No.	Type of Consultancy	Particulars	Distribution of charges
1	Advisory Consultancy	Consultant / Team of consultant	70%
		Concern department	20%
		University	10%
2.	General Consultancy	Consultant / Team of consultant	65%
		Concern department	25%
		University	10%

The consultancy charges may include the following items

- (i) Cost of equipment and Softwares
- (ii) Books and Journals
- (iii) The Overhead for the use of departmental infrastructure
- (iv) Travel
- (v) Consumables
- (vi) Contingent expenses
- (vii) Fee for Scientific/Technical Advice
- (viii) Remuneration -
- (ix) Analytical services

Industry / Client will pay consultancy amount to the university and university will distribute the consultancy fees to the staff and department. The fund received by the department can be utilized for the academic research activities of the consultant and welfare of the department.

For any consultancy work, communications between consultant and industries may be made at first through emails/letters/in person for the technical details and consultancy charges. Consultant can sign an agreement with industry / client in presence of authorities / concern Head of the Department, regarding the details of work to be carried out, non-disclosure agreement as well as terms and conditions.

- Needless to say that in any case the total estimated cost under the heads from (i) to (ix) cannot exceed the total Consultancy charge.
- No ceiling limit is laid down with regards to the total amount of the Consultancy charge. However, such practice should not interfere with the regular duties of the individual persons. The administrative staff members have to work in addition to their routine duties.
- The Consultant / Coordinator / H.O.D. will directly deal with the client in all matters regarding the Consultancy job.
- In case the work is published / patented, the University rule will apply and the share of the profits accruing will be distributed Department and Centre.
- In case of Research Consultancy, all the rules are the same except that the
  work will be considered as University work and the Consultant undertaking
  a visit outside will be considered on duty.
- The Coordinator will obtain prior permission from University for undertaking Consultancy with detailed project costs and the request needs to be routed through H.O.D.
- · The Knowledge center account is subject to audit as per University norms.

In addition to the above policies, the Head of the institution has privilege to enhance and modify the policies and issues the order as and when required.
