REGISTRATION FORM

Name : _____

Gender : _____

Designation : _____

Organization : _____

Postal address : _____

Pincode : _____

Mobile No : _____

Email : _____

Title of the Paper : _____

Accommodation : _____

Required / Not Required : _____

Payment Details : _____

DD No: _____ Amount: Rs.

Date : _____

Signature of the Applicant _____ Signature & Seal of Authority _____

Seminar Thrust Areas / Technical Sessions

- ♦ Environmental impact on earth resources
- ♦ Global climate change and forecasting
- ♦ Understanding the environmental impacts of land-use change
- ♦ Vulnerability of coastal zones towards climate change and sea level rise
- ♦ Watershed management and future challenges
- ♦ Environmental management and ecosystems
- ♦ Biodiversity and early detection of endangered species

CALL FOR PAPERS

The National level seminar calls for research papers on the proposed themes from all the faculties of national universities, research institutes, colleges and research scholars. The selected papers will be published with ISBN from renowned publisher on the inaugural day of the seminar. Complete, full length papers in about 5000 words typed in Times New Roman font 12 pts with 1.5 spacing should be submitted to the Seminar convener email Id: geosvenkat@periyaruniversity.ac.in. on or before 10-03-2016.

Venue

Senate Hall, PRIDE Building
Periyar University, Salem 636 011.

Registration

For students & Research Scholars : Rs.300/-
For Faculty & Others : Rs.500/-

Important dates

Submission of Full Length Paper : 10.03.2016
Intimation of Acceptance : 15.03.2016
Seminar Registration : 23.03.2016

The registration fee may be paid through D.D in favor of Prof.Dr.S.Venkateswaran Convener. Payable at Canara bank, Salem-11, along with the duly filled registration form.

Accommodation

The outstation participants will be, however, on specific request may be accommodated in the university guest house/ hostel on payment basis in first come, first served basis and are requested to fill up the enclosed registration form and send the same to the seminar convener.

PERIYAR UNIVERSITY
(RE-ACCREDITED WITH 'A' GRADE BY THE NAAC)
DEPARTMENT OF GEOLOGY
PERIYAR PALKALAI NAGAR,
SALEM – 636 011, TAMIL NADU, INDIA

PERIYAR UNIVERSITY

The Periyar University named after the renowned rationalist of the twentieth century E.V.Ramasamy affectionately called "Thanthai Periyar" was established by the Periyar University Act, 1997 passed by the Tamil Nadu State Legislature. It is located on the National Highway NH-7 towards Bangalore at about 10kms from the Salem new bus stand. The University is conferred with 12 (B) and 2 (f) status by the University Grants Commission, New Delhi. In 2015, the National Assessment and Accreditation Council re-accredited Periyar University with 'A' grade.

The University has jurisdiction of over four districts viz., Salem, Namakkal, Dharmapuri and Krishnagiri. In tune with its motto "Arival Vilaiyum Ulagu" (Wisdom Maketh the World), the Periyar University is fully committed to generate cutting edge knowledge in various fields. The twenty five departments of the University offer Post Graduate and Research Programmes. Further, the departments have been clubbed into eight schools to promote interdisciplinary research.

DEPARTMENT OF GEOLOGY

The Department of Geology was established as a University of Madras PG extension centre for research work in the year 1984. Prof.Dr.A.Jayakumar was the head of the PG extension centre and later, he has been elevated as the first Vice Chancellor of the Periyar University. The Department of Geology is offering academic and research programmes such as, M.Sc., Applied Geology, M.Phil., Ph.D., and PDF programme, and the department is supported by DST- FIST programme. The faculty members of our Department have specialized in various branches such as Geospatial Technology, Groundwater Exploration, Watershed Management, Mineral and Petroleum Exploration, Micropalaeontology, Stratigraphy, Sedimentology, Coastal Zone Management and Geochemistry.

ABOUT THE SEMINAR

The conservation of natural resources is the fundamental problem. Unless we solve that problem, it will avail us little to solve all others. Depletion of natural resources is associated with social inequity. Ensure sustainable and equitable use of resources without degrading the environment or risking health safety. Prevent and control degradation of land, water, vegetation and air. To conserve and enhance natural and man-made heritage, including biological diversity of unique ecosystems. To Improve the condition and productivity of degraded areas. Raise awareness and understanding of the link between environment and development. Promote individual and community participation.

Environmental protection is influenced by three interwoven factors: environmental legislation, ethics and education. Each of these factors plays a vital role in influencing national level environmental decisions and personal level environmental values and behaviors for environmental protection to become a reality, it is important for societies, to develop each of these areas. When natural habitats are destroyed or natural earth resources are depleted, the environment is degraded. The positive approach to reach the society, such type of seminar to be conducted to carry awareness among the public about protection of earth natural resources. Further, it helps to motivate the students and research scholars about the surrounding environment.

Keeping the above facts in mind the Department of Geology, Periyar University is organizing a National Level Seminar on Environmental Impact on Earth Resources and Future Challenges will be held on March 23-24 - 2016 with the financial assistance of Science and Engineering Research Board (SERB – DST) and UGC to create a platform for the researchers to share their experience and knowledge and to benefit the society.
