ABOUT THE UNIVERSITY

Periyar University was established at Salem in 1997 as per the provisions of the Periyar University Act, 1997. The University got the 12(B) and 2(f) status in 2007 from the University Grants Commission, New Delhi, our university has been reaccredited by NAAC with 'A' grade in 2015 with 3.15 CGPA, and also ranked 47th by the MHRD under National Institutional Ranking Framework in 2016. The University is named after the Great Social Reformer E.V.Ramasamy affectionately called "Thanthai Periyar".

ABOUT THE DEPARTMENT OF LIBRARY AND INFORMATION SCIENCE

The Department of Library and Information Science was established in 2011. The Department has full-fledged, dedicated and committed the team of faculties with rich research experience. The vision of the department is to impart quality of research and skill based Library and Information Science. The departmental endeavors to promote valid research activities and encourages students to bring out High impact factor publications in LIS. To meet out this high ended motive, the department has framed the syllabus to accommodate students compatibly at international forum.

THEME OF THE SEMINAR

The measurement of quality publication and research has received much attention in recent years. Several measures have been used: metrics such as number of citations; the h-index and the amount of online access and weighted citations. Others are based on input and output. Peer review, both application and disseminations stages has also been used as a method to measure quality. Some countries, like the Netherlands, have evolved fairly complex metrics such as the internationally standardized impact factor which is used to compare the mean citation rate of articles published by researchers with the mean citation rate worldwide in the field. The US uses the number of extramural grants as an important measure of research quality and success in addition to citations. None of these are without problems and bias and a recent opinion piece in Nature discusses the problems of putting too much faith in a single method - it measure a number, a ranking or peer review system. For all methods used it is important to recognize that what might work in one setting or discipline, may not work in others because of unique ways of funding, types of research, publishing behavior within disciplines and local or national socio-political-cultural factors related to scientific research.

- Curriculum Enhancement in Quality Publication.
- Application of Quality Parameters and

Creativity for Quality Improvements.

- Quality Research Publications
- Impact Factors.
- Indexing.
- Faculty and Research Scholars involvement in Quality Publications.

WHO CAN PARTICIPATE

Teaching Professionals from Academic Institutions, knowledge seekers, Research Scholars (M.Phil and Ph.D) and PG students are eligible to attend this programme.

RESOURCE PERSONS

The resource persons are eminent Professors from Foreign and Indian Higher education Institutions. In addition a few executives from multinational publishing companies will also share their experience.
